WACO, TEXAS, WEDNESDAY MORNING, OCTOBER 2, 1912

AT SPEED OF NINETY MILES DARING RACER GOES TO DEATH

DAVID BRUCE BROWN IS THROWN
FROM MACHINE AS IF
FROM CATAPULT.

TIRE BURSTS ON TURN

TRACK SO NARROW IMPOSSIBLE
TO CONTROL.

LIVES BUT THREE HOURS

Tragedy is on the Track of the Van-
derbilt Cup Event, on the Eve
of Great Race.

Milwaukee, Wis., Oct. 1.—David Bruce Brown, a wealthy young New York sportsman lost his life and his mechanic, Tony Schudalar, was fatally injured the result of an accident on the new Wauwatosa automobile race course today on the eve of the eighth running of the Vanderbilt cup race.

Bruce-Brown was driving his high-powered Fiat car 90 miles an hour when a rear left tire blew out. The heavy car swerved into a ditch and the men and machine were catapulted diagonally across the road and into a field. The men were thrown clear of the car, which was hurled high in the air. It fell a tangled mass of wreckage.

Bruce-Brown's skull was fractured his left leg was broken and he suffered internal injuries. The top of Schudalar's skull was crushed, his right arm broken and his body seriously torn.

Died in Three Hours.
The daring young driver died at Trinity hospital of hemorrhage of the brain three hours after the accident, having only partly regained consciousness for a few minutes. Surgeons had trephined his skull on both sides in an effort to save his life.

Caleb Bragg, Bruce-Brown's close friend, Ralph De Palma, Teddy Tetzlaff and other well known drivers stood weeping in the hospital corridor as Bruce-Brown was wheeled from the operating room to a private ward. The hospital authorities withheld the news of his death for an hour.

Narrow Track Responsible.
According to Bragg, an experienced race driver, narrow course here partly was responsible for the death of Bruce-Brown. He says that on a wider road the young driver could have swerved when the tire blew out.

Much of Bruce-Brown's fame came by his ability to take turns at speed other drivers feared, was to a large extent responsible for his rise from helper in the Fiat camp during the first runner of the Grand Prix race at Savannah to pilot of the winning car in the renewal of the same race two years later over the same course.

Exceptions to the statements that the narrow course was largely responsible for the accident were taken by officers of the Milwaukee automobile dealers association under whose auspices the races here are to be run. Referee A. B. Hamilton also declared the accident could not be blamed on the course.

"The accident was unavoidable," said Mr. Hamilton, "and the track was in no wise to blame. It is in excellent condition. The casting of the tire would have upset any machine traveling at that speed, no matter how excellent the course was."

Had Set a New Record.
The accident occurred while Bruce-Brown was a few yards behind Teddy Tetzlaff in another Fiat car. Bruce-Brown had just driven the fastest lap of the day's trials and had set a new record of five minutes, 53.8-10 seconds for the 7.1-10 mile course. He was endeavoring to better this record and had just attempted to pass Tetzlaff when the crash came.

Tetzlaff declared he did not hear the tire explode, but missed Bruce-Brown behind him, as he slowed down to take the "graveyard" turn. Tetzlaff at once reported "Brown's out," to Patrol Judges at the stand.

Meanwhile George Clark, one of the Mercedes drivers, discovered the plight of Bruce-Brown and Schudalar and telephoned for an ambulance from a nearby farmhouse, after giving first aid to the injured man.

While the surgeons were working over Bruce-Brown at the hospital, a half dozen friends of the young driver were making repeated efforts to reach his mother by long distance telephone at Mrs. Bruce-Brown's country place, Islap, Long Island and at her town home in East 70th Street, New York. Messages also were sent to Bruce-Brown's brother in New York and to other relatives. Tonight messages were received stating that Mrs. Bruce-Brown accompanied by other relatives had started for Milwaukee.

Had Just Reached Milwaukee.
Bruce-Brown had been in Milwaukee only two hours and twenty minutes when the accident occurred. He arrived from New York this afternoon, accompanied by his manager, V. W. Kiersata, and Caleb Bragg. Today was the first time he had gone around the course since the early trials more than a week ago. He

1 KILLED; SCORE HURT IN WRECK

EIGHT COACHES BREAK FROM
PASSENGER AND PLUNGE
OVER EMBANKMENT.

MESSANGER IS CREMATED

Pullman Passengers Flee From Burning
Wreckage in Night Clothing.
Supreme Judge Aboard.

Nashville, Tenn., Oct. 1.—One person was cremated and a score of others injured today when two Pullman sleeping cars, four day coaches and two express cars broke away from a rapidly moving Louisville and Nashville train near Elkmont, Alabama.

The eight cars plunged down an embankment then caught fire. Sam M. Chilton, Springfield, Tenn., an express messenger was caught beneath the wreckage and could not be rescued. His body was burned to ashes. The flames spread so rapidly that occupants of the sleeping cars were compelled to flee in their night clothes. Judge Thomas C. McCallan of the Alabama supreme court, escaped in his night clothes and a blanket. The engine of the train did not leave the track and the news of the accident was carried to Athens by the engineer.

A broken rail is supposed to have caused the wreck, the track at that point being perfectly straight.

List of Injured.
The list of injured are:
B. F. Tursey, Franklin, Ky., bruised
Bishop J. H. McCoy, of the Southern Methodist church, sprained.
Mrs. Maggie Tursey, Franklin, Ky., internally injured.
A. L. Weise, Nashville, shoulder wrenched.
Perry Luna, a boy, Nashville, hurt on head.
J. Y. Walker, New York, bruised.
—Knoff, Ensley, Ala., bruised about body.
L. G. Wright, Mount Juliet, Tenn., arm hurt.
Walker Bryan, Lebanon, Tenn., leg hurt.
—Braesendurg, Brooklyn, N. Y., head hurt.
Mrs. Bertha H. Henney, East Highlands, California, head and foot hurt.
Miss Madeline Boland, Nashville, arm hurt.
Mrs. J. B. Duke, Nashville, knee hurt.
Henry Martin, Birmingham, head and shoulders hurt.
—Wavey, Ensley, Alabama.

THE COLONEL FINISHES TOUR

Has Traveled Over Ten Thousand Miles on the Swing.
Raleigh, N. C., Oct. 1.—In the "Old North State" tonight, Colonel Roosevelt delivered the last scheduled speech of the longest campaign tour ever undertaken by a presidential candidate. The auditorium here which has space for 7,000 persons, was crowded. Col. Roosevelt made nearly a score of speeches during the day, and he was hoarse and weary. He talked for an hour, then brought his speech to a close with the words with which he had opened his campaign:

"We stand at Armageddon and we battle for the Lord."
In this state, with its heavy interests in the tobacco industry, Col. Roosevelt spoke of the American Tobacco company, saying that when such a finding was reached as that handed down by the supreme court in the tobacco trust suit, a receiver should be put in charge of the business.

Has Made Long Trip.
When Col. Roosevelt reached Raleigh tonight he had traveled 10,373 miles on the present trip. The distance to New York will bring the total up to 10,871 miles. The ex-president left New York on September 2, and has spoken in 27 states in 30 days. He went first into New England for a day, then struck out to the west, speaking in a few of the central states before going into the northwest and to the Pacific coast. Thence he traveled down the western edge of the continent to Los Angeles, through the southwest and after turning northward to Denver, began his campaign through the south. A campaign that which he wore when he left Oyster Bay, now bears the scars of many battles. His coat has been tugged at from all quarters in the midst of struggling crowds until the colonel says as he looked at it today that it would hold together until he reached home tomorrow, he would promise never to wear it again.

Cortelyou to Explain.

New York, Oct. 1.—George B. Cortelyou said today that he would explain before the Clayp committee any apparent discrepancies between his statements regarding campaign contributions and those of Cornelius N. Bliss Jr. In the meantime, he added, it was obvious that he could not discuss the situation informally.

ROUMANIA IS TO START WAR

SITUATION GRAVE IN BALKAN
STATES—ACTION AWAITS
LEADER.

THREATS FROM TURKEY

GREEK VESSELS IN TURKISH
WATERS MAY BE SEIZED.

GREATEST POWERS DIVIDED

Action Classed By Some as Move to
Defeat European Diplomacy.
Declare Russia is Involved.

**KING FERDINAND
BALKAN ARMY CHIEF**
London, Oct. 1.—A dispatch from Sofia says that a convention between Bulgaria, Serbia, Montenegro and Greece has named King Ferdinand as chief of the united armies for the Balkan states.

CABINET ACTS SECRET.

**Servian Demand is Denied by Diplo-
mats—Regards Ammunition.**
Constantinople, Oct. 1.—The cabinet, after a prolonged meeting tonight decided to oppose a partial mobilization for the Turkish army. The exact orders are for the present kept secret. The cabinet also rejected the Servian demand respecting the transportation of ammunition through the Turkish lands. This action is in reply to a note sent to the Porte by the Servian minister, Dr. Ninadovitch, in which he requested the Porte either to sanction the passage of ammunition at present detained by the Turkish authorities, or return it to France.

Servians have now stopped consignments of ammunition from Germany for Turkey, while Bulgaria has suspended freight traffic between Turkey and Bulgaria and commanded all the cars from military service.

The Porte has now decided to detain all Greek vessels in Turkish waters, to requisition their services for the transport of troops.

Although no communication has yet been presented by any of the Balkan states with reference to Macedonia, it is the opinion of many diplomats here they will formulate a demand for Macedonian autonomy which Turkey is certain to refuse.

Fear Turkey's Refusal.
War will then be inevitable, unless the powers succeed in restraining Bulgaria and Serbia by a threat of occupation by Austria and Russia of these two kingdoms if they embark in hostilities against Turkey. But it is doubted if Austria and Russia will be able to agree on such joint action.

Consequently, it is regarded probable that Austria, backed by Germany, will not act singly, or it may be that war can be staved off by assembling a European conference.

It is reported that the Turkish government is about to discuss a circular to the powers repudiating responsibility for the crisis, which it says has resulted from the provocative attitude of the Balkan states.

Italy Silent.

Rome, Oct. 1.—Italy's program in the event of war in the Balkans has not been fully mapped out.

Hungarian Minister Talks.
Vienna, Oct. 1.—The minister of defense, speaking before the Hungarian delegation on the subject of the Balkan crisis today, said:

"We have not mobilized as yet, but we too, will be compelled to have recourse to preventative measures."

King Nicholas Acts.

Cettigne, Oct. 1.—King Nicholas has ordered a general mobilization of the army to demonstrate Montenegro's solidarity with Serbia and Bulgaria.

Urges Rescinding of Orders.

Cologne, Germany, Oct. 1.—The Cologne Gazette's inspired dispatch says:

The powers are considering a combined effort to induce the administrations at Constantinople, Sofia, Belgrade, Athens and Cettigne to rescind their mobilization orders and are expected to agree on a common step soon.

The present situation gives ground for belief that the Balkan states will wait to see what effect the mobilization of their armies will have on the powers.

Belgrade Deserted.

Belgrade, Oct. 1.—Troop trains were leaving the capital all night long for Nish and other garrison towns near the Turkish frontier. Many business houses in this city have been compelled to close up on account of their employees having been ordered to join their regiments.

Could Not Be Worse.
London, Oct. 1.—With the exception of Roumania, all the Balkan states

FLINN USES "LIE" AT QUIZ

PROGRESSIVE COMMITTEEMAN
HURLS HEATED REPLY TO
PENROSE'S CHARGE.

NO \$1,000,000 OFFER

DECLARES SENATOR TESTIFIED
REGARDING 1904 FUND.

QUAY WAS "GOLD BRICKED"

Senate Campaign Expenditures Com-
mittee to Hear Dixon, Roosevelt's
Latest Fund Manager.

Washington, Oct. 1.—William Flinn of Pittsburgh, Roosevelt leader and Progressive national committeeman in Pennsylvania, and Elton H. Hooker of New York, treasurer of the Progressive national committee, gave the senate campaign expenditures committee some inside facts today about primary expenses of the Roosevelt campaign for the Republican nomination at Chicago.

Mr. Flinn appeared not only to tell of his contributions but the answer charges of Senator Penrose that Mr. Flinn offered \$1,000,000 to him and Israel Durham in 1904 for the Pennsylvania senatorial appointment to succeed M. S. Quay, and that in the same fight Flinn exchanged telegrams with John D. Archbold of the Standard Oil company asking his support.

Lie Passed to Penrose.
The Pittsburgh man declared if Senator Penrose made the first statement he "lied." As to the other he produced Judge Spain of Pittsburgh, who testified that he "thought" he had signed Mr. Flinn's name to the telegram to Mr. Archbold June 7, 1904; and that he and not Mr. Flinn had handled the telegrams with Mr. Archbold and had attempted to get the Standard Oil influence in Mr. Flinn's support.

Prod by Senator Pomeroy, who demanded a specific answer, Mr. Flinn admitted having written an agreement in January 1906 in which Senator Quay, J. O. Brown and Mr. Flinn proposed to divide up the federal and local patronage of Pennsylvania. He declared he had "gold bricked" Senator Quay, "that he never had signed or intended to sign the agreement," and that he had written it only to ally Senator Quay's opposition to the Republican candidate for mayor of Pittsburgh.

Finn Contributed \$144,368.29.
The investigation showed Mr. Flinn has this year contributed \$144,368.29 to the Roosevelt campaign and the Progressive campaigns in Pennsylvania.

Mr. Hooker who presided him on the witness stand produced records to show that the Roosevelt national committee had spent \$141,637.44 in the entire national primary campaign preceding the Chicago convention. More than \$52,000 of this sum went to Massachusetts for the bitter primary fight there.

Mr. Hooker also produced records of the New York primary campaign, where the Roosevelt forces spent \$52,000.52. The records showed that George W. Perkins had given \$15,000 to the New York and \$22,500 to the national campaign; Frank A. Munsey \$15,000 to the New York and \$19,000 to the national campaign, and Dr. Hanna, \$25,000 to the national campaign.

Y. Expenses \$99,384.18.

Mr. Flinn apportioned \$99,384.18 as "Roosevelt expenditures" in the statement he gave the committee of what he has contributed this year. Other items given for the election of delegates brought the total of his Roosevelt contributions up to \$102,000 and he admitted he had contributed 90 per cent of the money spent to carry Pennsylvania for Roosevelt in the primary. He added that he believed the end sought—a change of conditions in Pennsylvania was "worth the price."

The senate committee tomorrow will hear Senator J. M. Dixon, manager of Roosevelt's campaign since its beginning last February; J. G. Cannon, president of the Fourth National Bank of New York, who audited the books of Cornelius N. Bliss; George R. Sheldon, treasurer of the Republican national committee in 1908 and

LOCAL TEMPERATURES.

Daily temperatures furnished by Dr. I. Block, voluntary weather observer, for twenty-four hours ending Tuesday at 7 p. m.: Minimum, 59, maximum 83, barometer 30.06, relative humidity, 53.

Weather Forecast.

Washington, Oct. 1.—Forecast: East Texas and Louisiana—Local rains Wednesday and Thursday. West Texas—Local rains Wednesday and Thursday.

Oklahoma — Fair Wednesday; slightly warmer; Thursday unsettled.

Men Who Are Making Waco

—Sketched from Life by Gilbert, Staff Cartoonist, Morning News.

In the making of Waco, one of the most important features of the commercial life is the financial affairs. This city is prepared to furnish the cash for the people who need money for investments. Trust companies are to play a big part in Waco's future, and with the trust companies will be the banks. It is an attractive invitation that this city offers to the people to place their securities here. The best opportunity in the state is offered, and these securities when placed with responsible concerns, will be offered as good investments under the guarantees that well-capitalized concerns can give. One of the most active men in such financial matters is F. E. McLarty. Mr. McLarty came to this city five years ago, and already he has to his credit of organization three big concerns, two of which have become a big consolidated financial business. The consolidation also being through his efforts. Mr. McLarty organized the Exchange National Bank in 1907. It was a thriving business institution that had an important place in Waco banking circles. In 1910 he organized the Central Texas National Bank, and it proved to be a success during the two years it was a going concern. Then, a few months ago, he negotiated the consolidation of the two into one big bank, which has shown a phenomenal growth in business since the amalgamation was effected. Successful in banking affairs, and seeing the need of a big trust company, he was one of the promoters of the Central Texas Exchange Trust company, and is now its active manager and vice president. It takes its place readily with the well equipped and safely capitalized companies of its kind in the south. Mr. McLarty is vice president of the consolidated Central Texas Exchange National Bank. In the making of Waco, the building of these financial concerns is to his credit, and it is a mark in his favor that stamps him as one of the helpful men of the town. He is actively identified with the Young Men's Business League.

ATROCITIES CONTINUE COLQUITT'S WORDLAW

MENA'S CAPTURE FAILS TO QUIET
NICARAGUA BOMBARDMENTS.

Managua Still Infested By Warlike
Activities—American Minister
Reports of Rebel Abuse.

Washington, Oct. 1.—The revolution in Nicaragua, which was supposed to have collapsed with the surrender and exile of General Mena, its principal leader, still continues with a great deal of vitality in the section to the south of Managua, the capital, and midway between that place and the lake port of Granada. Both Managua and Granada are garrisoned by American bluejackets and marines.

There was an active bombardment all last Sunday of the town of Mazatenango by a rebel force under General Zelaya, with no definite results.

American Minister Weitzel believes the present trouble will not continue longer than two weeks. Cases of abuse and mistreatment of Americans and other foreigners by the rebels now are beginning to be reported to the state department, however.

Although most of these occurred several days or weeks ago, it appears there will be work for the American forces for some time to come in protecting foreigners.

LAWRENCE STRIKE IS ENDED

Over 12,000 Men Return to Work After
24 Hours' Layoff, Accompanied
By Riots.

Lawrence, Mass., Oct. 1.—The strike of 24 hours declared by the Industrial Workers of the World, employed in the textile mills of this city as a protest against the imprisonment of Ettor and Giovannitti, ended today when more than 12,000 operatives who had remained away from the mills yesterday returned to work. Only minor disturbances were reported.

Wants Irrigation Fund.

Salt Lake City, Utah, Oct. 1.—George Eames Barlow of Texas introduced a resolution during a meeting of the International Irrigation congress to recommend that the federal congress inquire into the feasibility of establishing an "irrigation land fund" to aid immigrants in obtaining lands and for making loans to such settlers.

GOVERNMENT RESPECTS TEXAS
GOVERNOR'S WISHES REGARD-
ING MEXICANS' VISIT.

Acting Secretary Wilson Announces
Permission to Cross Border Has
Been Suspended.

Austin, Oct. 1.—Evidently Governor Colquitt's request that permission for passage of Mexican troops from Marathon to the border has been respected by the state department at Washington, for he today received a telegram from Acting Secretary of States Huntington Wilson advising him that the permission has been suspended. The governor advises that he has no objection to the passage of these troops through Del Rio.

With regard to the dispatch from Washington that his permission for passage of the troops had been asked only as a matter of courtesy and he could not interfere, he said that surely the state department would not disrespect his wishes in so much as they had heretofore considered them and when he objected to passage of troops through El Paso, when a conflict might have taken place to endanger lives of American citizens, they had then declined the permission.

The following protest against the passage of troops from Marathon to the border was received by the governor from W. W. Turney:

"I most earnestly protest against permission being granted for the Mexican federal troops to detain at Marathon for Mexican border. These troops must necessarily pass either through my ranch or that of my neighbor, and the passage would be attended with great damage to live stock interests and in addition might be the means of inciting trouble with rebel sympathizers and possibly others."

Turney was advised by the governor that the troops will not detain at Marathon for the Mexican border.

BEHRMAN IS THE MAYOR.

Elected Under the First Commission
Government in New Orleans.

New Orleans, Oct. 1.—Early returns from today's election indicate that Martin Behrman for the past eight years mayor of New Orleans, has been elected first mayor of the city under the new commission form of government. The early figures also indicate a complete victory for the so-called "regular" ticket over the democratic good government league, although it was admitted later returns might change the result as to two commissioners.

TALESMEN BALK AT JURY WORK

TRIAL OF ALLEGED DYNAMITE
CONSPIRATORS DELAYED BY
FORMED OPINIONS.

EXCUSING OF DEFENDANTS LOW-
ERS NUMBER INDICTED TO 44.

FARMERS ANSWER "GUILTY"

Declare They Have Decided Opinions
When Quizzed as to Qualifica-
tions as Verdict Makers.

Chronology of Alleged Conspiracy
Chronology of the alleged dynamite conspiracy:

Summer 1905. First explosion (railroad bridge) Miller's Falls, Mass., 13 sticks of dynamite discovered.

1905-1910. Almost one hundred explosions in Ohio, Pennsylvania, New Jersey, Massachusetts, Connecticut, New York, Maryland, Illinois, Iowa, Wisconsin, Missouri, Nebraska, and western states.

October 1, 1910. Los Angeles Times building blown up, 21 persons killed.

December 25, 1910. Llewellyn Iron Works, Los Angeles, blown up.

April 12, 1911. James E. McNamara and Orville E. McManigal arrested at Detroit.

April 22, 1911. John J. McNamara, secretary-treasurer of International Bridge and Structural Ironworker, arrested at his office in Indianapolis.

December 1, 1911. McNamara pleaded guilty at Los Angeles, John J. to murder in the first degree in blowing up the Los Angeles Times building, and James E. to having blown up the Llewellyn Iron Works. Both sentenced later.

February 6, 1912. Federal grand jury at Indianapolis returns 23 indictments charging 54 men with having participated in a conspiracy illegally to transport dynamite.

February 14. Almost all the defendants arrested within a few hours at a signal, telegraphed to many parts of the country.

March 12. Defendants arraigned and pled not guilty.

October 1. Exactly two years after the Los Angeles disaster, the trial before a federal court begins.

Indianapolis, Ind., Oct. 1.—Lines upon which a jury is to be chosen for the trial of four defendants, accused of complicity in a widespread dynamite conspiracy against employers of non-union labor were indicted today in the examination of talesmen.

The trial was begun before Federal Judge A. B. Anderson and the original number of fifty-four men indicted, headed by Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, were reduced to forty-four, the government withdrawing the charges against three men. Another defendant was absent because of a broken leg. Orville McManigal pleaded guilty and another defendant was reported "not found."

John J. and James E. McNamara, serving terms in a prison in California, were also reported "not found."

No sooner were the preliminary motions ended than Judge Anderson said:

About 400 Subpoenas.
"Call a jury." The court had stated the sessions of the trial would be for at least six hours daily. Summonses have been prepared for from 300 to 400 witnesses. It is believed a jury would be completed in a week. Talesmen were examined by Senator John W. Kern and Wm. N. Harding for the defense and by District Attorney Charles W. Miller for the government.

J. M. Hatfield, a farmer and country school teacher was excused because he said he had an opinion that the defendants were guilty.

"Where did you get that opinion?" "From the newspaper. I read the accounts of the McNamara trials at Los Angeles, and that the grand jury at Indianapolis had indicted these men. This convinced me they are guilty."

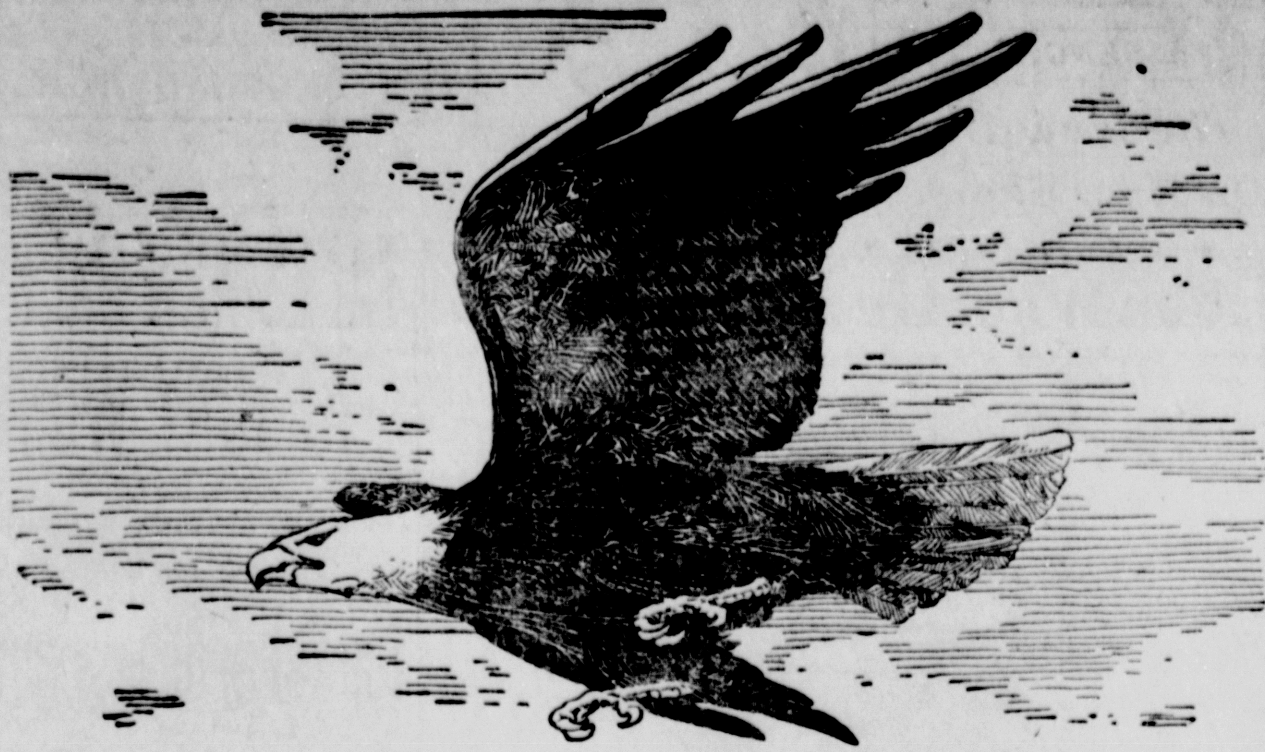

"You know, don't you that these defendants were indicted jointly with the McNamaras?"

Farmer Sticks To Belief.
"Yes, it would take evidence to overcome my opinion."

"You say you read about the blowing up of the Los Angeles Times building, the pleas of guilty of the McNamaras, the confession of McManigal, and you concluded that they were all jointly guilty in carrying explosives on passenger trains?"

"Yes, sir; that is my belief, and it would take evidence to remove that impression," Hatfield said.

Much of the questioning was devoted to whether the talesmen ever had had relations with union labor or were prejudiced for or against it. As a former banker, John Burgess

New Castle, Ind., was asked whether William J. Burns, a detective who arrested McNamagal and the McNamaras, was at present employed by the American Bankers' Association. Burgess said he did not know.

Sons Get One Excused.
One man was excused because he had sons who were members of labor unions.

"Did you ever read McNamagal's confession in which he implicates these defendants as being associated with him in carrying dynamite and nitroglycerine about the country?" Charles V. Johnson, a farmer, was asked.

"Yes, I read it, and, together with the fact that the grand jury found indictments here, convinced me these men are guilty," he answered.

James H. Hurst, another farmer, said: "The government wouldn't have introduced any evidence to convince these men are guilty. I am convinced already."

When more takenmen were excused after expressing similar opinions, Attorney Harding explained to the talemnen that the government's charges were not that the men caused the explosion but only that they illegally transported explosives.

Starts With the Blowing up of the Los Angeles Times Building.

Indianapolis, Oct. 1.—Whoever participated in the McNamara brothers in the series of dynamite and nitroglycerine explosions which preceded and followed the wrecking of the Los Angeles Times building, October 1, 1910, when 21 persons were killed, the government hopes to disclose in the trial which begins today before Judge A. B. Anderson of fifty-one men.

At the head of the list of defendants, who thus are brought into court exactly two years after the Los Angeles disaster, are:

Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers.

Ortie E. McNamagal, once known as "J. W. McGrew" on the Pacific coast, a confessed dynamiter and accomplice of the McNamara brothers, who has been kept in custody as a witness for the prosecution ever since his arrest in Detroit a year ago last April.

Herbert S. Hockin, successor of John J. McNamara as secretary-treasurer of the union, whom McNamagal accuses of being the organizer of the "dynamiting crew" and one of the originators of the alarm clock scheme by which explosions were set off several hours after the mine was placed.

Most of the other defendants are present or former union officials whom the government charges were linked together in a conspiracy by an extensive correspondence from 1905 to 1911 during which time more than 100 explosions in states scattered from Massachusetts to California occurred in works under construction by employees of non-union labor.

Fifty-four men were indicted last February, but John J. McCray, Wheeling, W. Va., never has been located and the McNamara brothers are in prison in California.

Courtroom Ready for Trial.

The courtroom which probably for weeks will be the scene of the trial, has long been ready. Every precaution has been taken to secure quiet. The windows of the small room, located on an outside corner of the second floor of the federal building have been heavily curtained to exclude the daylight. Recently Judge Anderson had the walls and ceiling thickly padded with felt to improve the sound conditions.

United States Senator John W. Kern has been retained as counsel for the defendants, while the government will be represented by District Attorney Charles W. Miller and his assistant.

Sixteen defendants were placed under \$10,000 bonds each to appear for trial and the others each under \$5,000 bonds, making an aggregate in bonds of \$350,000.

Witnesses are to be called from many parts of the country. While it is not the intention of the government to go thoroughly into the cases which resulted in the imprisonment of the McNamaras, all that part of the evidence of the Pacific coast explosions as pertains to the illegal interstate shipment of explosives has been made available to District Attorney Miller and his assistant.

Charges in Indictment.

Each of the 52 indictments returned last February contains charges against all of the defendants, and the charges are embraced in three groups. They are:

Transporting dynamite and nitroglycerine in passenger trains from one state to another; as Ortie E. McNamagal confessed was done when these explosives were carried in suit cases from hiding places at Muncie, Ind.; Rochester, Pa.; Tiffin, O.; and Indianapolis, to cities where "jobs" were to be blown up.

Conspiring to violate interstate regulations relative to explosives.

Concealing knowledge of the conspiracy or abetting the illegal transportation of explosives.

Most of the explosions of which the government has made a record were directed against members of the National Erectors' Association, an organization of constructors who had broken off relations with the union, and were conducting "open shops." The first explosion or attempt recorded was at Miller's Falls, Mass., in the summer of 1905 and the last October 16, 1911, when at 2 a. m., near Santa Barbara, Cal., 39 sticks of dynamite with a fuse were found beneath a bridge just before a special train bearing President Taft passed over. Twenty of the explosions occurred in Massachusetts.

Confession of McNamagal.

McNamagal's confession was the basis upon which the government founded its case before the federal grand jury which returned the indictments. And it is expected to figure prominently in the present trial. In it McNamagal confessed:

That Hockin came to him in Detroit in 1907 and induced him to blow up a "job" there, afterward paying him a regular fee of \$125 for each job. McNamagal had worked in a stone quarry and, he said, it was because of his familiarity with explosives that he was selected.

That Hockin accompanied him on trips and pointed out works that were to be blown up, afterwards introducing him to James B. McNamara, who became McNamagal's "teammate" in the dynamiting business.

That on instructions from Hockin, he met Michael J. Young, a member of the executive board in Boston and Frank C. Webb in New York, about jobs that were to be blown up near those cities.

That Hockin wired him at Chicago to return to Indianapolis in February, 1910, where he, Hockin, and J. J. Mc-

Hiram Cline, Muncie, Ind., organizer for carpenters.

Ortie E. McNamagal, confessed dynamiter and accomplice of the McNamaras, held a prisoner as chief witness for the government.

John J. McNamara, secretary-treasurer of the ironworkers, now a prisoner in San Quentin prison, California, on his plea of guilty in having blown up the Llewellyn Iron Works in Los Angeles on Christmas day, 1910.

James B. McNamara, his brother, also in the same prison, on his plea of guilty for having blown up the Los Angeles Times building, at 1:07 a. m., October 1, 1910, when 21 persons were killed.

Although 54 men were indicted, only 31 of them were to appear for trial, because the McNamaras already are in prison, and McCray never has been located since the indictments were returned last February.

LIST OF DEFENDANTS.

Following is the government's list of the defendants in the dynamite cases:

Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers; residence, Chicago, and quarters Indianapolis.

Herbert S. Hockin, acting secretary-treasurer of the union.

John T. Butler, Buffalo, N. Y., first vice president.

Eugene A. Clancy, former member executive board and former business agent at San Francisco.

John H. Barry, St. Louis, Mo., former member executive board.

Henry W. Leggettner, Denver, Colo., former member executive board.

Daniel J. Brophy, Brooklyn, former member executive board.

Patrick F. Farrell, Brooklyn, former member executive board.

John J. McCray, Wheeling, W. Va., former member executive board (never found after indictment).

Michael J. Young, Boston, member executive board.

Philip A. Cooley, New Orleans, member executive board.

Charles N. Beum, Milwaukee, former member executive board.

Michael J. Cunnane, Philadelphia, former business agent local union.

James Conney, Chicago, former business agent local union.

J. W. Irwin, Peoria, Ill., former secretary-treasurer local union.

Richard E. Houlihan, Chicago, financial secretary local union.

Edward Clark, Cincinnati, former president local union.

William E. Riedlin, Milwaukee, former official local union.

Paul J. Morris, St. Louis, former president local union.

Daniel Buckley, Rock Island, Ill., former secretary local union.

W. Bert Brown, Kansas City, Mo., former business agent.

Edward Synthe, Peoria, Ill., former secretary and business agent.

Frank K. Painter, Omaha, Neb., former business agent.

Andrew J. Kavanaugh, Springfield, Ill., member local union.

Peter J. Smith, Cleveland, business agent.

Murray L. Pennell, Springfield, Ill.

TWO SHOT TO DEATH IN BED

Rising Star Couple Victims of Accidental Discharge of Shotgun.

Their Son Sees Tragedy.

Brownwood, Oct. 1.—Mrs. J. R. Montgomery at Rising Star was instantly killed and her husband mortally wounded last night when a shot gun jarred from its place on the wall by the slamming of a door, was discharged.

Their son, Clint, 23, was writing a letter in the room when the gun fell, he caught at it, and the hammers struck the door facing, discharging the contents of both barrels at his sleeping parents, on their bed.

Montgomery is a well-known farmer. He moved to town Friday. He has a son, Oscar, in Artesia, and a daughter, Mrs. Cameron McDonald, in Cisco.

AUTO FIRMS TO AID.

Manufacturers Announce They Will Help Raise Fund for Good Roads.

Atlantic City, N. J., Oct. 1.—Announcement was made at today's session of the American Roads congress that automobile manufacturers of the United States had agreed to contribute one-third of one per cent of their gross returns during the year 1912 for the good roads cause.

This will create a fund of \$17,000 it was said.

Death of Mrs. Radey.

Palestine, Oct. 1.—Mrs. Radey, wife of Superintendent T. C. Radey, of the I. and G. N., died at her home here this morning at 5 o'clock after a brief illness.

ADOPT HILL READERS

GINN & CO. GET THE BIG PLUM IN TEXT BOOKS.

Governor Votes to the Contrary—Playmate Primer is Selected Also. Study Languages.

Austin, Tex., Oct. 1.—Ginn and company of New York with Texas offices at Dallas, secured the biggest plum which the state text book board will award. Ten members of the board, with Governor Colquitt voting to the contrary, today adopted the Hill readers.

The Playmate Primer by B. F. Johnson and company of Richmond, Va., was unanimously adopted as a primer, the governor remarking that he would vote as Mrs. Little voted on that point.

Supplemental readers are to be adopted Thursday. Governor Colquitt will go to Brenham tonight and will not be here tomorrow.

All members of the board with the exception of Mr. Kadenke were today ready to vote upon supplemental readers. Out of deference to him, the matter was deferred until later. In the mean time the board will take up and study the next subject, language lessons and English grammar.

STATE OF TEXAS MINUS CASH

Heavy Buying for Institutions Responsible—January Taxes to Relieve.

Austin, Oct. 1.—The state of Texas will go on a deficiency basis this afternoon, according to State Treasurer Edwards. The recent heavy inroads upon the general revenue by the state institutions which have been laying in fall supplies and supplies for the new fiscal year have entirely bankrupted that fund.

It seems that it will be without cash until tax collections come in next January. From time to time outstanding warrants will be called in and paid but it cannot longer operate on a cash basis.

Those who cannot get the banks to hold their warrants will be forced to discount them.

When the state treasury closed this evening there was a balance of \$18,829.75 in the general revenue, with outstanding warrants amounting to a great deal more than the balance on hand.

When the state goes off cash basis, calls will be made for warrants as fast as money accumulates in the treasury. It is expected that the first call can be made within ten days.

Payments from the general revenue amounted to \$27,459. A number of building warrants are now coming in and make the drain upon the state revenue a heavy one.

LANE ANSWERS COLQUITT.

Has Inefficient Office Force and is Behind in Work.

Austin, Tex., Oct. 1.—Comptroller W. P. Lane has replied to the recent letter of the governor asking that the comptroller investigate and report what has become of more than \$2,000 collected by the state revenue agent, receipted for by the comptroller's department, but not yet turned over to the state treasury. Mr. Lane says that inadequate office force is partly responsible, as his gross receipts tax clerk has been forced to look after other matters. He attributes other delays in error in report and calculations. These payments, he says, he has not yet turned over to the treasury because he has not authority to transmit payments. He goes into the matter in detail.

CONFEDERATE WOMAN'S HOME.

Estimate of Needs Aggregates Over Forty Thousand Dollars.

Austin, Oct. 1.—The first estimate to be filed by the Confederate Women's home for maintenance was today filed with the comptroller. There is asked a total of \$46,750 for two years, \$23,375 the first year and \$23,375 the second year. For maintenance \$15,000 a year is asked. With the exception of \$5,000 desired the first year for equipping a new building which is to accommodate seventy-five, other appropriations are merely for salaries and minor things.

The state expert printers' estimate asks for \$35,550 a year or a total of \$67,300 for two years for first, second and third-class printing. To print reports of the supreme court, court of criminal appeals, and court of civil appeals, \$15,000 a year is asked.

CREAM FOR THE CHAPS

If these cool mornings make your face, lips and hands chaps, you need a good Cream to rub on them.

Benzoin and Almond Cream

Will serve the purpose. It relieves all irritation and protects the skin. Rub it on before you go out and see the difference. For gentlemen after shaving it is great. Use it and drive the chaps away.

MASONIC MEMBERSHIP GROWS

Initiates of Twelve Months Number About 22,000—Wide Representation at Boston Convention.

Boston, Oct. 1.—A large increase in the membership of ancient accepted Scottish Rite Masonry, extending over all parts of the Northern Masonic Jurisdiction, was reported by Sovereign Grand Commander Barton Smith of Toledo, to the supreme council today. The delivery of the allocation of the sovereign grand commander marked the opening of the second day's session of convention of the Thirty-third degree body.

The sovereign grand commander reported that from July 1, 1911, to July 1, 1912, there were 12,175 initiates to the Fourteenth degree. The report showed further that the initiates last year were 6283 in the lodge, 5697 in the council, 5694 in the chapter and 5779 in the consistory.

MAN SHOT MAY BE FUGITIVE

Moscow (Tex.) Authorities Seek to Identify "Leather Breches" as C. N. McFall.

Lake Charles, La., Oct. 1.—Charles Smith, or "Leather Breches," as he was commonly known, who was killed last week by Deputy Sheriff Charlton, whose efforts to arrest him for complicity in the Grabow labor riot he resisted, is now believed to have been C. N. McFall of Moscow, Tex., alleged murderer of his mother-in-law.

Smith was supposedly identified following his death as Eben Myatt, wanted in Texas for murder, but Texas authorities have disproved this.

FRENCH BEVERAGE IS BARRED

U. S. Customs Officials Stop Future Shipment of Absinthe—Two Months' Supply Left.

New York, Oct. 1.—An order prohibiting the importation of absinthe into this country went into effect today, according to an announcement at the customs house, and the drinking of absinthe will cease in America as soon as the present stock is exhausted. The available supply, it is said, will not last more than two months.

The department of agriculture holds that absinthe contains drugs that are injurious to the health of the people of the United States.

KATE FRIEND, Editor

TODAY'S SOCIAL SCHEDULE; SOCIETY ENTERTAINED

For today there is scheduled the tea at Saint Paul's parish house, which marks the beginning of work for the Guild after summer rest.

Mrs. Harold Shear is entertaining at cards in the afternoon in courtesy to Mrs. Luke Moore.

Mrs. Howard Lanham is opening her home to the friends of the Austin avenue Methodist church in general and especially to the members of the circle where Mrs. Luke Patterson is chairman. The hours are between 3 and 6, and there will be a coin plate provided.

A QUIET WEDDING HERE IN THE W. C. TORBETT HOME

Although unknown to Mrs. W. C. Torbett, here became the privilege of giving first congratulations to a bride and groom on Monday. An automobile party composed of Miss Lula Cass, Mrs. Scetion and Miss Hefley, with Sam Hefley, came up from Camerton, presumably on a little overland outing. They called at the Torbett home, where Miss Cass is a relative, and soon appeared Dr. McConnell of the First Baptist church. It was then love's secret out. Mr. Hefley and Miss Cass had decided to take home friends unawares, and come to Waco to be married. The party remained at the State House until this morning, when the return trip to Cameron was made. Mr. and Mrs. Hefley are prominent in their community, and their homegoing under such happy auspices will be the cause for general good wishes from the community.

FLOWERS, NOT STONES, FOR BIRTH TROPHIES

The new style in jewelry says that the woman must wear her birth flower in the place of the birth stone, which she has worn so long. These are being wrought into gold, and the center taken by the birth stone; so, if there really be luck in the wearing of one's natal token, there is double luck to the woman who takes the new fashion. The flower for the one born in December is the mistletoe, for October the chrysanthemum, for November the cosmos, for September the aster, for August the poppy, for July the poppy. The woman born in the winter months goes a begging for no flower unfolds as her good luck destiny during these chilly days.

FORT WORTH IS ARRANGING FOR STATE CLUB WOMEN

With the resumption of individual club activity, there is up in Fort Worth the preliminaries towards entertaining the State Federation. This will be in November. Locally, Mrs. C. W. Connery, one of the leading club women of Fort Worth, and one of the best known club workers in the state, will be in charge. She has already mailed her women. These met on Tuesday. Their plans will be perfected between this and the federation dates in November. Waco will be well represented. Miss Kate Friend has already consented to serve on one of the special committees. Each club will send a delegate and others will go as personal guests' friends. The close proximity of Fort Worth will doubtless make the Waco delegation larger than usual.

THE KNIGHTS OF COLUMBUS OPENS SOCIAL SEASON

The intimation that the Knights of Columbus would open their social season was all that was necessary to attract a company for the pleasures of this delightful club. It is planned that there shall be four of the more formal club functions during this winter, and the one of Monday night was the opening. The parlors, the reception hall, the billiard room, the reading room with its fresh magazines, all these were opened and patronized. But it was to the ball room that the young folks and the large majority repaired. The string band gave the dance numbers, and it was truly the case of "all hands round," for young as well as old entered into the spirit of the dance. The arrangements were made by Mesdames P. A. Gorman, B. B. Bray, Bland Brown, W. B. Hutcherson, H. B. Mistrof, Pat Hopkins, R. B. Hayes, Ripley Hanrick and Miller. Refreshments were a feature in the enjoyment. Seldom does a more congenial company form among club members as was this which participated in the first of the social sessions in the Knights of Columbus hall.

THREE TEXAS WOMEN TAKE NATIONAL HONOR

It was noted that in her list of committees for the General Federation, Mrs. Percy V. Pennybacker paid distinction to three from her own state. These are Mrs. Olga Kohlberg of El Paso, Mrs. Maggie Barry of Sherman, and Mrs. O. L. McKnight of Center. In making the selection, Mrs. Pennybacker evidently had two thoughts in mind, one being to represent the widely divergent club centers of the state, and the other to select capable women who are not committed to arduous work for the Texas Federation. Mrs. Kohlberg was prominent when the state club women met in Waco. She is a highly educated woman, and one who thinks wisely before she acts. She is a power, and a woman who carries respect for all that she says and does. During her visit to Waco she was paid personal courtesies. She will serve on the national education committee. On the same committee is Mrs. Maggie Barry of Sherman. Mrs. Barry is a teacher in the Kidd-Key school, hence actively identified with education. She is a wonderfully well informed woman, and is the author of courses of study for clubs. Her personal association with Waco lies in her appearance as one of the two women speakers when the Conference

of Education was held in this city two years ago. Mrs. McKnight is from Center, and is past president of the club women of this district. She is a woman who enters into all club life with enthusiasm and her interest never wavers. She knows the Texas club women all over the state, and there is not one who will not further whatever Mrs. McKnight is called upon to advance for the General Federation. These three women will reflect credit upon club women of Texas.

WOMEN MUST MAKE CITY: SMALL THINGS MAKE GREAT

In passing down the busy street a thought is forced, and this thought is that the women of Waco have as much responsibility in the small things of city building, perhaps more, than do the men. One idea is now forced in our little city, and this is the etiquette of the sidewalk. The city police are guarding well the traffic ordinance. Did any one note how quickly we became observant of this? We, in a week, formed the habit of driving to the right, of hitching near the curbstone, and of turning at the proper angle. If we did this with vehicle, of course we can do the same with body. And now is the time to begin it, as the streets between this and the first of January will be continuously congested. The Masons, the Eastern Star, the Cotton Palace and the holiday trade will all take us to the shopping district. We are no longer a sleepy village. We have aspirations towards being considered a city. Then, do let us assume city ways. One of the first, let it be the proper walk down the street. The time has gone by when a woman must walk on the inside, in the idea that she must have man's chivalrous protection. His strong arm is no longer needed on the outer side of the walk. Women can take care of herself. As it is now, we are dodging from one side to the other, ducking our heads over one another's way, and altogether showing that we do not know how to walk correctly in a city-like way. Let the women begin right now. Let each woman keep to the right of the walk, on the outside as she goes down, and the inside as she returns. This will adjust the two streams, make passage much more expeditious and orderly. It is for the women to begin. If we learned so quickly how to drive in order, certainly we can learn how to walk in order. We will then have free movement in our hurry of shopping. We will collide with no one, we will show our progressiveness, and we will impart to our little Waco the cosmopolitan air of a real city. Begin this the next time you go down town. Some one will note you and be likewise.

Society Notes.

The San Antonio women have gone right to work for the Wilson-Marshall campaign fund. The leading society women, like as in Waco, have taken the prominent positions.

Among recent arrivals on the East Side is Mrs. William Hague. As Miss Leila Carter she was known in Waco, and returns to make this her home again. She is on Preston street.

The Central Presbyterian Missionary society will hold its accustomed Thursday meeting in the church parlors this week.

Mrs. Lee Davis is luncheon hostess for Friday. Her invitations have been extended.

Mrs. Whitman and daughters will this season be on South Fourth, near Jones.

The next program for the Mary West chapter made by the state historian calls for the subject of John H. Reagan. This will be made a public celebration of the Reagan birthday. The program given at the library on Sunday afternoon, two days preceding the real birthday date.

Mrs. N. E. Boggess is a forthcoming hostess in courtesy to Miss Katherine Spencer as the bride of the coming week.

Miss Marie Anderson will be formally presented as a debutante after the Cotton Palace season.

Over in Berlin when a woman enters a public conveyance she is closely scrutinized by the conductor. If she wears a long hatpin she is made to remove it or to leave the car.

It is announced that one of the winter visitors will be Mrs. Nellie Moore Green Burnett, who comes from Boston. She will be the guest of her sister, Mrs. Herbert Green, on North Fifth.

Tell this to the little folks: There is just one factory in all the world who makes shoes for dollies. Just think of how many pairs the dollies must need when this small enterprise requires a building of 18,000 square feet. All the shoes are made in Boston.

The Colonial Bridge will resume its winter games on Thursday afternoon. The hostess is Mrs. B. F. Dancer, on the South Side.

The Art League meets this week. This is another of the resurrections of work after summer separation. John F. J. Lennox as president of the City Federation, is marshalling her forces in order to make Woman's Day of the Cotton Palace a notable occasion. There will be a meeting this morning.

It is ascertained that cool fifteen million dollars is made annually by those who sell fake tuberculosis cures. On Tuberculosis Day, which is the twenty-seventh of this month, every pastor of the nation will be requested to preach a health sermon and to tell something of the imposition practiced upon the tuberculosis victims. This is a wonderful move in the right direction.

The Misses Gurley, also Mrs. C. C. McCulloch, who is here, are anxious

watchers over their father, Captain Davis Gurley, who lies very ill.

It is expected that the present week will find Reverend and Mrs. Frank Calvin arrived to make their home, at least for the present, among the former friends of Mr. Calvin.

Is it not inconsiderate, to say the least of it, for every woman who enters a street car to take an outside aisle? This means each woman has a seat all to herself, and there is no where for the man except to stand on the rear platform.

Really and truly, the girl behind the counter tells too plainly what she is when she attends to her customers between mastications of a huge wad of gum. The girl behind the counter should never forget that she is before the public, and that her employer expects her to show the manner of good breeding.

Are you inviting your Cotton Palace guests? Are you mailing out Cotton Palace post cards? Are you talking Cotton Palace in every letter you write? If you are not, then you are not a real public spirited woman. Some think it would be a good idea to publish the list of Who is Who and their street addresses. This is because so many have changed residence during the summer lull.

Should any woman expect to observe a weekly at home day, it would greatly serve their friends were they to publish these. Now that the season is opening, society owes it to the other half to inform all so that they may proceed in harmony.

The women certainly did their part for the Wilson-Marshall fund. It is only to be hoped that the men did as well.

Society Personals.

Misses Fay and Bird Hoffmann are at home from Sioux City, Ia.

Mrs. James Gaither of Morrow street, has gone to North Carolina to be with relatives.

Mrs. Davis Prendergast has returned from her visit to relatives in Bell county.

Miss Katherine Snead is at home from the coast.

Mrs. Louis Crow has arrived from Asheville, where she had been since early spring.

Mrs. J. B. Cornish is at home from Detroit.

Miss Bernice Young, who summered in the East, is here for the winter.

Miss Lolla May Henry was the Tuesday guest of Miss Pauline Foster. She left for Washington City on Tuesday night.

Mrs. O. H. Cross is noted among the recent arrivals at home. She had been in West Texas.

Miss Ellen Harden was greeted home from Kentucky on Monday.

Mrs. John D. Mayfield of North Fifth street, has returned from a short visit to Austin.

Mrs. William Green of North Fifth, is at home from Dallas.

Mr. and Mrs. J. W. Blake of North Thirteenth, are at home from attending the Blake-Jones wedding in Houston.

Mrs. J. W. Powers of Marlin, is a recent visitor to her aunt, Mrs. J. P. Sample, on Washington street.

To Wed in Belton.

Invitations announcing the approaching marriage on Tuesday, October 8, of Miss Theo. Negro, daughter of Mr. and Mrs. D. Negro, and Simeon Oliver Hassler, secretary of the Waco real estate exchange, have been received by a number of friends of the contracting parties in this city.

The wedding is to take place at the home of the bride, 342 North Main street, Belton, Texas, at 8 o'clock in the evening. After an extended wedding tour, the couple will be at home to their friends after November 1 at Highland Place this city.

Citizenship Boosted.

Houston, Oct. 1.—Monday was naturalization day in the federal court and 103 aliens were made citizens.

SCIENCE UNDERSTANDS THE STOMACH

Treating Indigestion With Stuart's Dyspepsia Tablets Is an Exact Science—They Give Quick Relief.

Medical men have learned more about the stomach than perhaps any other vital organ. They have discovered why the stomach rebels at certain conditions—what causes the formation of gases—what causes flatulency, heartburn, dyspepsia, burning sensation, brash, and all the other disorders of the stomach.

They have gone further. They have found remedies for all these afflictions, these results of improper digestion. They have learned that pepsin, hydrochloric acid and fruit salts are powerful digestants that relieve quickly and surely all the troubles to which the stomach is subject. They have discovered that one grain of these properties will digest 300 grains of food.

Stuart's Dyspepsia Tablets are not a medicine. They are a scientific compound that supplies the stomach with the digestive agents which it is itself unable to provide. When your stomach is sick and not working right when it fails to give out enough of the digestive juices to properly take care of the food you eat, these tablets will make up the deficiency. You will have no indigestion. Your food will digest thoroughly.

You never can tell just when your stomach is going back on you. It gives no warning. If you eat a big meal, if you eat hurriedly, take one of these little tablets. You will avoid a lot of pain and misery.

Some of the most prominent men carry these tablets in their vest pockets when they attend banquets, etc., and never fail to take them. Stuart's Dyspepsia Tablets are sold by all druggists, at 50c a box.

PASSENGER ELEVATORS NEAR SIXTH STREET ENTRANCE

The New Dress Goods Store on Our Second Floor is Now Showing a Wonderful Lot of AUTUMN FABRICS at \$1.00

Women find it a real pleasure to shop in the Dress Goods Section these days. Cream Serges, 42 inches wide; finely woven, very handsome Cloths for \$1.00.
Fancy Cheviot Suitings; Novelties for Coat Suits, etc. 42 inches wide and selling for \$1.00.
The Staple Henriettes and Panamas in an unusually fine quality; all the desired shadings. The yard \$1.00.

THE GOLDSTEIN-MIGEL CO.

TO BESTOW CROSSES OF HONOR

Daughters of Confederacy to Observe Reagan Day Next Sunday Afternoon.

At the public library next Sunday at 3 p. m. there will be appropriate exercises to the observance of Reagan Day, under the auspices of the Mary West chapter, United Daughters of the Confederacy, at which time the Crosses of Honor which have been received for Confederate veterans will be bestowed.

It has been announced some time ago that the bestowal of crosses on Reagan Day this year would be the last, but there are some crosses which have been ordered which have not been received, and they will be bestowed later.

Reagan day is next Tuesday. It was determined by Mrs. W. H. Forester, the president and others of the Mary West chapter that better attendance could be secured if the exercises are held on Sunday, and the date was fixed for then.

The following are the veterans to whom crosses are to be given on this occasion:

B. S. Gray, C. W. Green, A. J. Weatherbee, A. Turner, W. J. Thomas, A. J. Smith, F. M. Smith, J. W. Massey, J. G. Lindsey, Gabe Ketter, T. J. Farmer, Jacob Ellis, J. W. Ellison, T. E. Earp, J. W. Downs, J. M. Carter, as a descendant, O. D. Harris as a descendant.

BOHEMIAN DAY BIG.

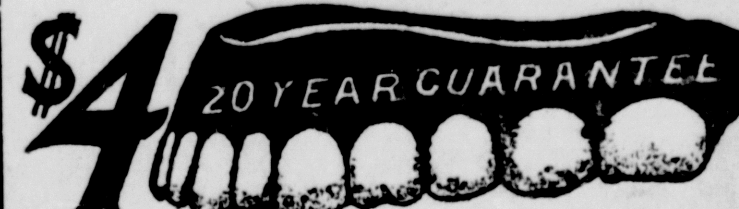

Plans for Cotton Palace—Social Leaders Want Balls.

Bohemian Day at the Cotton Palace will be one of the biggest of the entire show, if the plans of a committee which appeared before the directors of the organization last night in President Hoffman's office at the postoffice prove effective.

Method, Pazzral, of West, an F. H. Waylock, C. A. Zapala and W. J. Mazzonek were the Bohemians who attended the meeting last night. They asked that all arrangements for their day be left with them, stating that at a meeting of representative Bohemians to be held here Sunday, plans would be made to make the day a big success.

The committee to have charge of the balls, reported through Will Lacy that the body wished to have Friday, November 8, set aside for the holding of a mammoth ball, invitations to which would be sent to the various society leaders in the state in an effort to make the event of state-wide importance.

WHALEBONE TEETH

In order to introduce our new (whalebone) plate, which is the lightest and strongest plate known; does not cover the roof of mouth; you can bite corn off the cob; guaranteed 20 years. We will until Oct. 5 make this \$15 set of Teeth for \$4. Have Impression Taken in Morning, Get Teeth the Same Day. Examination and Advice Free. Established 15 years. Here to stay. UNION PAINLESS DENTISTS. 615 1/2 AUSTIN STREET—Next Door to Kress. LADY ATTENDANT

NEW COURSES PROVE POPULAR ASK PAVING ON COLUMBUS ST.

Industrial Subjects at High School Have Many Students—More Teachers Are Needed.

Petition Is Being Signed By Some of the Property Owners for Bitulithic.

So large will be the attendance of the domestic science class at the high school the first year of its installation that the school trustees have promptly responded to the recommendation of Prof. J. C. Lattimore, superintendent, and will give an assistant to the present director of the work in order that classes may be organized and the work begin full blast at once. Mr. Lattimore yesterday announced that Miss Elizabeth Currie of Bellville, Kansas, at present a teacher in this department of the high school at that place, had announced her acceptance of the position as assistant in the department here, and that he expected her to arrive here within the next few days.

The manual training department is also overrun with applicants for admittance and it is said that in all probability an assistant will be secured for this department.

Better Breed of Hogs.

Indianapolis, Oct. 1.—"The human race has not kept pace with the improvement in the blue blooded breeds of hogs and cattle within the past 100 years," declared Dr. Wm. A. Evans of Chicago, in his address before the fourth national conservation congress this afternoon.

Will Columbus be paved with bitulithic from Sixth street to the city limits line on the west?

That is to be determined by the property owners—that is a majority is now being circulated and which a large number of property owners are signing. It is stated that some of the large property owners along the street are opposed to the paving movement, and have not affixed their signatures, but under the ruling of City Attorney Williams if a majority of property owners—that is a majority of the individuals along the street—sign the petition, it is effective.

The bitulithic pavement already down has proved popular with the people, and the prospects for a fine paved street out North Fifth is pleasing to a large number. Those who live along Columbus, who have signed the petition, say they like the noiseless pavements of bitulithic character, and are willing to pay the cost necessary.

There will be no help from the street car company if Columbus street is paved. There is no car line along its length, and that proportion which the traction people paid on Austin and which the company will pay on North Fifth street, will not be available from corporation coffers.

INEQUITABLE TAXATION.

A possible decrease of about \$80,000,000 in the state's taxable value is said to be indicated by the rolls of the 166 counties that had been received at Austin at the close of the past week. Should this figuring prove accurate, there will be a shrinkage of about \$700,000 in general revenue funds and of about \$350,000 in available school funds.

That there has been an actual decline in property values in the state is anything but a fact. That the attitude of the comptroller of state's office who attributes the seeming shrinkage in taxable values to the leniency of tax assessors and commissioners' courts, which usually manifests itself during the years in which a general election is held, is in a measure correct in his diagnosis need not be doubted.

The story is an old one and will continue to repeat itself as long as the present system of assessing property for taxation exists. Tax assessors and county commissioners are very human as a rule, and will always be sure to go gingerly about their business, insofar as it relates to matters of taxation, when they are seeking re-election. The effect of this biennial attempt to make a record for economy is neither great nor injurious in the several counties. But inasmuch as the state derives its revenue in part from a tax levied on the aggregate of the county assessments, it can be readily seen that quite a disturbance of the state tax board's calculation is bound to occur when there is a general movement among the assessors and commissioners of 243 counties to ease up on the taxpayers, as is the case every two years. If a deficiency occurs it is made up the next year, of course, because the valuations jump back to and beyond the previous highest level during the alternate years, and no great harm results in the end.

The system is in other respects inequitable, however. Each county assesses its property and taxes itself according to its needs. The counties that have bonded themselves to the limit for improvements and which contemplate further expenditures allow nothing to escape taxation and see to it that approximately full rendition obtains. With such counties as are not heavily bonded and which are not doing much work of a public nature, the contrary is the case. It follows, therefore, that while the people of one county are rendering their property at as high as ninety per cent of its value, those of a neighboring county are rendering theirs at as low as forty per cent of its value, although there may be no actual difference in the market value of the property thus unequally assessed. Local financial exigencies dictate the rendition in both cases, which is proper, but a glaring injustice is perpetuated when it comes to the collection of the state tax.

The state lumps the various county assessments and taxes the aggregate at a uniform rate and, without regard for the local conditions which produce the inconsistent renditions it must accept. As a result the taxpayer who resides in the heavily bonded and highly progressive county pays on a high assessment while his neighbor in another county pays on a low one. In other words, some taxpayers, comparatively speaking, pay the state twice as much as others do, simply because they dwell in counties that need the money and assess their property owners with a view to getting it.

Full rendition all around has been advocated and ordered as a remedy for this. But full rendition is impractical so long as the assessing is done locally. If the tax rolls were made up by the state it might be possible to have full rendition. Since

those rolls are made up for each county by an assessor elected by the people of that county, and finally passed on by a board of equalization chosen by them, it is idle to talk about universal full rendition for state tax levying purposes.

The county assessors and the county commissioners' court are going to proceed in matters of taxation just as their constituents want them to under all circumstances, and the only way for the state to avoid coming in contact with the seeming inequalities that result from the assessment of property under the present system is to find its own sources of revenue and separate them from those on which the counties must depend.

An Illinois school boy who picked a dynamite cap with a steel pen will have to do his picking with one hand for the rest of his life. A rather costly lesson.

Faith may move mountains, but a rich Pennsylvania golf club has contracted to pay \$50,000 for the removal of their links. They probably have more money than faith.

After probing the cost of living for ten years past, the U. S. labor bureau learned nothing that an intelligent housekeeper could not have told it off-hand.

Not surprising that able lawyers should regard that new folk newspaper law as unconstitutional. It is said that Frank Hitchcock has already found it to be unenforceable. Yet it's supposed to go into effect October 1.

Miss Jane Addams has announced her intention to take the stump for Colonel Roosevelt, and she's quite some speaker when she wants to be.

However, Morgan Shuster should have got out his book on Persia sooner, if he wished to utilize the advertising. Half the people have forgotten all about him and his mix-up with Russia in Persia.

Perhaps the reason the old devil chorus went out of fashion is that we have so many individual loud noise makers.

It's a cinch that some of the witnesses before the senate campaign contribution committee will be given first page space for everything they tell.

Possibly Mount Wrangell, in Alaska, started seven craters to erupting just to show some folks in this country that they could not monopolize hot air.

Nope, we haven't had any money laundered—haven't kept any long enough.

Well, yes, considering its size and importance, Santo Domingo does manage to give Uncle Sam a heap of trouble.

Always a new plea. The "lone train robber," caught in the act, near New Orleans, says he was under the influence of a drug and didn't know what he was doing.

"Take care of package left in room 5," was a note sent a Washington hotel keeper. Now that gentleman is looking for the scientist who said babies were worth \$90 each. The "package" was an infant boy.

After all, it's just one dog-gone thing after another. As soon as a president's elected, Christmas shopping troubles will begin.

"This government does not exist for the purpose of making money," shouts an editor. Still he must admit that, to spend a billion a year it's got to make quite a wad.

Wonder what kind of dope this fellow uses who says there's nobody dodging? There are certainly a lot of motions being made that look like dodging to most people.

The Kansas cyclone liar's still on the job. His latest makes a cyclone pack away "as neatly as if done by hand," a load of hay a farmer had left standing before his barn.

STATE TO BRING SUIT.

Dallas Concern Said To Be Violating Charter Provisions.
Austin, Oct. 1.—The attorney general will file tomorrow morning a suit for forfeiture of charter and dissolution of corporation against a Dallas concern with a capital stock of \$250,000.

It is alleged that the concern did not have properly paid in at least 50 per cent of its capital stock when it organized, and that it is now doing a fraudulent business. Full data with regard to the corporation is said to be in the hands of the attorney general.

This is one of the first suits of the kind ever brought in the state.

HOW DANGER LIES IN TUBERCULOSIS

CARE AND CLEANLINESS WILL PREVENT COMMUNICATION TO OTHERS.

PROTECTING PUBLIC PLACES

Commission Is Doing All It Can to Educate the Public as to Cause.

San Antonio, Oct. 1.—That there is a high death rate from consumption among the poorer Mexicans of Southwest Texas, despite the healthfulness of the climate, is a fact which has come to the knowledge of the State Tuberculosis commission. In some correspondence on the subject between State Commissioner Bushick and Representative Hornby of Uvalde, Mr. Hornby says he finds that the poorer Mexicans contract the disease mostly from taking in washing and allowing their children to wallow around on the clothes used by sick people; also by begging old mattresses that consumptives have died on. With impoverished systems for lack of good food, these people are easy victims of disease.

Commissioner Bushick has been investigating these conditions and will take steps to wage a wide publicity campaign of preventive and curative methods by means of lectures, moving picture films and articles in the English and Spanish press.

Said he: "Tuberculosis is conveyed mostly by direct contact with a consumptive's sputum, or spit, by kissing or using the same eating or drinking utensils. Handkerchiefs, clothes or bedding once used by a consumptive may contain dried bits of the sputum which may be inhaled and cause the disease. The same is true of old carpets and hangings. While everybody exposed to these germs do not take the disease, depending on the strength of the system to withstand the germs, the danger and inevitable infection are sufficient to necessitate the greatest care and most stringent regulations. Ignorance is the Cause.

"While tuberculosis or consumption carries off some five thousand people in our state every year, or several times more than die from any other cause, these astounding figures are not a reflection upon our climate, nor do they offer excuse for panicky fear of the disease which sometimes shows itself in blind and futile ways. The present death rate for consumption is an indictment of the ignorance and heedlessness of the people upon this particular matter of public hygiene, and like most other violations of law, especially natural law, it carries its own sure and awful penalty.

"Our people have been properly warned of the dangers of this great plague," continued Mr. Bushick, "and it now becomes a public duty to balance this apprehension by a proper knowledge of preventive and curative methods. If every man, woman and child will learn and observe these few and important facts, the mortality will be greatly reduced and we may hope to ultimately wipe out the disease entirely.

Protecting Public Places.
"The state sanitary code is doing much to protect cars, waiting rooms and other public places from infection by careless sick, and the state laws should be closely followed up by anti-spitting ordinance and other effective regulations. There should also be a law that no hotel or lodging house should again use a room occupied by a consumptive until it has been fumigated by the health authorities. Behind these laws there should be a strong public sentiment in support of them. Above all there should be a sympathetic spirit of helpfulness and co-operation toward the unfortunate consumptives themselves. Every city or county should have its tuberculosis hospital, or free dispensary for treating indigents and others and otherwise keeping up with the disease to prevent its spread.

Well Conducted Sanatorium Safe.
"The greatest authorities tell us that while tuberculosis is contagious, it is not intensely so like measles or scarlet fever. It is not contracted by merely living in the house with a consumptive if the latter is clean and careful. For that matter, a well conducted tuberculosis sanatorium is a far safer place than the average hotel or boarding house. The broad rule may be laid down that it is the expectorated sputum or spit of the consumptive that carries the disease. For this reason all consumptives should be required to use the regulation spit cups and to burn the same twice daily. Individual drinking glasses and eating utensils should be used and sterilized, and consumptives should never kiss anyone. Rest, nourishing food and open air are the three essentials of the cure and the open sleeping porch is a good thing for everybody. If we are to treat the plague of tuberculosis all intelligent people must co-operate and work to spread the facts among the poor and ignorant who read little and cannot be reached by lectures."

Texas Kills Self.
Waxahachie, Oct. 1.—Standing in the front doorway of his home Miles McWhorter, 45, sent a pistol bullet through his forehead this forenoon, causing instant death. He leaves a widow and five children. No cause is known.

El Paso Elk Promoted.
El Paso, Oct. 1.—George E. Wallace of El Paso, has been appointed to the supreme court of the Elks lodge. Wallace received notice from Thomas R. Mills, grand exalted ruler, who appointed him a member of the judiciary committee for the year.

RADETZKI OUT OF SUNSET-CENTRAL

RESIGNATION COMES AS A SURPRISE IN ALL RAILROAD CIRCLES.

IS A VERY POPULAR MAN

Wanted to Leave Service a Year Ago, but the Company Urged Him to Stay—Other Changes.

There was much surprise expressed in railroad circles in Waco yesterday when the information was received that Gus Radetzki, assistant general manager of the Sunset-Central lines had resigned.

Mr. Radetzki is one of the best known railroad men in the service of the Harriman lines in this state—in fact he was with the old Huntington system, and came into the Harriman family, when Harriman took over the Collins P. Huntington properties. He was at Victoria for years as an official of the lines which traverse that southern section of the state, before the scattered properties became absorbed under the general system.

Mr. Radetzki has been connected with the Sunset-Central lines since 1904. He came to Houston at that time with Mr. Pay when the latter became general manager of the properties. Since that time Mr. Radetzki made a rapid rise until he attained the position which is only third from the top of the ladder.

His first official position after coming to Texas was that of superintendent of the Victoria division of the Galveston, Harrisburg & San Antonio. From that place he was transferred to the Houston & Texas Central as general superintendent. He had that position until last winter, when he was made assistant general manager of the entire Texas and Louisiana system. He assumed this new position at the time the unit system was put into effect.

It was about a year ago that Mr. Radetzki sought to retire from railroad business. In the organization of a large banking institution at Victoria, he was urged by friends there to take an active part in the business. He agreed to do so, bought a block of the stock, and accepted a position that would have put him in the counting house. He announced his intention, and at the time he received an urgent telegram from New York urging him to remain with the road. This request was backed up by a petition from shippers and business men asking him to stay in the service. He gave up his prospective connection with the banking house, and retaining his place with the Sunset-Central lines, has been advanced in position since.

Mr. Radetzki has not yet announced his future intention. He is "well fixed" as the saying goes in money matters; has a large live stock farm in Leon county and is interested financially in a number of enterprises in South Texas. He is popular all along the line of the Central.

The information from Houston is that Mr. Radetzki's resignation is declared to be the first important move in the direction of reorganization by President W. B. Scott of the Atlantic lines of the Harriman system.

G. S. Wald, who has been superintendent of the El Paso division goes to Houston as Radetzki's successor. Other changes announced are: R. M. Hoover, superintendent at El Paso transferred to El Paso as successor to Wald.

D. S. Gallagher transferred to El Paso in Hoover's place.

Roy Walker succeeds Gallagher in charge of the Houston East and West Texas line.

H. J. Micksch is made Walker's assistant. The changes made affect the operation of the Houston and Texas Central and it is stated that President Scott will give his attention to other lines under his jurisdiction in the near future. Mr. Radetzki says he will take a rest before forming any plans for the future.

COMPLAINS OF RAILROADS

Arkansas Pass Dock Company Express Fear Channel Will Be Forcibly Closed Under Conditions.

San Antonio, Oct. 1.—Port Arkansas is in danger of being closed as a deep water shipping point by reason of what the Arkansas Pass channel and dock company charge is organized conspiracy and discrimination on the part of a majority of Texas railroads in favor of Galveston, Texas City and Port Arthur regarding the handling of cotton shipments.

The Arkansas Pass Channel and Dock company has filed a complaint with the interstate commerce commission in which twenty-three Texas railroads are defendants and seeks the interstate commerce commission to take the matter under consideration and rectify existing conditions.

In addition to discrimination against Port Arkansas, the complaint avers that the railroads have not complied with provisions of the interstate commerce law refusing to recognize shipments of cotton to that port as inter-

"BEST CURE" FOR MARQUARD

McGraw Watching Over His "Hope" That He Be Ready for the World's Series.

New York, Oct. 1.—Manager McGraw of the New York Giants has been giving Marquard the "best cure" so that he may be at his best in the world's series.

Marquard was overworked in his attempt to beat the record for straight victories and his manager decided to let him recover his nerve and stamina.

GIANTS ARE CONGRATULATED

Murphy Sends McGraw Best Wishes in Post Series Games With Boston.

New York, Oct. 1.—A letter from Charles W. Murphy, president of the National League Club of Chicago, congratulating the New York Giants upon their victory in winning the National League pennant, has been received by John J. McGraw, the Giants manager. The letter reads:

"Dear Sir: Now that figures show that your club has won the National League championship for 1912, I desire to extend my congratulations, and those of all the members of the Chicago club on your notable victory, and we also wish you success in the post-season games with the Boston club of the American League for the championship of the world."

"Yours very truly,
"CHARLES W. MURPHY."
A few weeks ago the Chicago president addressed baseball circles with the statement that the St. Louis team was helping the Giants win the pennant.

WASHINGTON NOW IS TIED

New York Twirler, Salmon, Gets Split
Finger—Pennock Takes Mound
and Strikes Out Chase.

Philadelphia, Oct. 1.—New York was defeated here today 4 to 3. Philadelphia's victory being due largely to bunting hits off Keating's delivery. By winning today, the home team tied Washington for place. Salmon was forced to leave the game at the fifth inning, when he had a finger split by a grounder off Daniels' bat. Pennock, who took Salmon's place, did excellent work and ended the game by striking out Chase with a runner on third base. Daniels' base running was a feature of the game.

Score—
New York . . . 100 010 001—3 7 3
Philadelphia . . . 002 011 004—4 8 5
Keating and Sweeney; Salmon, Pennock and Lapp.

BOSTON TAKES AN EASY GAME

Groom, Washington's "Strong Arm,"
Loose After Winning Nine
Straight.

Washington, Oct. 1.—Boston's Americans today broke Groom's winning streak of nine straight games, winning easily from Washington 12 to 5, and making 2 out of 3 in the last series of the season with the locals. The hitting of Lewis and Bardhill featured the game. Speaker was given five bases on balls. By losing today while Philadelphia was winning, Washington went back to a tie with Philadelphia for second place.

Score—
Boston . . . 204 100 280 12 13 1
Washington . . . 100 101 000—2 7 5

M'GRAW PREDICTS A VICTORY

Giants' Manager Takes View of Boston Team to "Get Wise" to Players.

New York, Oct. 1.—Manager John J. McGraw of the New York Giants went over to Washington today to size up the Boston Red Sox. With the world's series struggle to begin here just a week hence, McGraw took one of the earliest opportunities since his team clinched the pennant to study his opponents.

He was expected to pay particular attention to the tactics of Jake Stahl, the Boston leader, with whom Mr. McGraw will match wits in the big games. He had no opportunity, however, to study the pitching of Joe Wood for Stahl put in Bedient, one of his second-string men. During McGraw's absence Marquard and Tetreau, two of the star pitchers

series, went down to defeat before Philadelphia. It was a shock to the ardent fans to see a second division team bunch hits in three innings and finish with a score of 9 to 2 against their favorites. Marquard had to be taken out in the fifth, and "Big Joe" Tetreau did worse, allowing seven hits and four based on balls.

Before leaving, McGraw reiterated his confidence of triumphing in the world's series.

"Our experience of last year will help us greatly," he said. "Go back over the records and I think you will find that in every case where the same team has played in the world's series in consecutive years it was a stronger aggregation the second time than it was the first."

seventeenth hole, while the other eleven were decided some distance back. Among those who came through was last year's champion, Miss Margaret Curtis.

TEAM BREAKS ALL RECORDS

Minor Heir and George Gano Paces Mile in 2:02 in Ohio.

Columbus, O., Oct. 1.—Minor Heir and George Gano paced a mile in 2:02 today, breaking the world's record for a team of any sex, formerly held by Lady Maud C., and Hedgewood Boy at 2:02 3-4.

They started to break the stallion pacing record of 2:05 but broke the other as well.

PRESBYTERIANS HAVE SERVICE

This is a Day of Fasting and Prayer With Them.

Throughout the dominion of the southern Presbyterian church today, by direction of the general assembly, the governing body of the church, will hold evening services and prayer will be sent up to God asking that four objects urged by the assembly be accomplished.

The first of these aims is to secure the Scriptural observance of the Sabbath among all of the people.

The second, to inspire every Presbyterian home to diligently and prayerfully train its members in the holy scriptures and catechisms of the church.

The third, an attempt to uplift the social pleasures of the young people by discouraging worldliness, and by encouraging them to give their energies more and more to the work of the church.

Fourth, to establish some form of worship in every home.

Today was then set aside by the

assembly a one of fasting and prayer and for general meetings in all of the churches. These meetings will be considered the launching of a campaign to attain the above four objects. At the First Presbyterian church at 7:30 o'clock this evening, Rev. C. T. Caldwell will hold services.

STRIKE ON AT TEAGUE.

Three Hundred Men Go Out in the T. & B. V. Shops.

Houston, Tex., Oct. 1.—A strike affecting 300 men and involving five crafts was effective in the Trinity & Brazos Valley shops at Teague at 1 o'clock this morning, the action of the men being in protest against the appointment recently of a foreman. Only meagre details of the affair could be secured from the headquarters of the company here today. J. W. Robbins, president of the concern, however, has been officially notified that the strike is on.

NAVAL HERO IS KILLED

LIEUTENANT MORRISON, 25, VICTIM OF EXPLOSION ON ATLANTIC.

U. S. Department's Letter of Commendation Yet Undelivered When Accident Occurs.

Newport, R. I., Oct. 1.—The explosion of the forward end of the port turbine, together with the steam chest on the torpedo boat destroyer Walke, off Brenton's Reef Lightship today instantly killed Lieutenant Morrison, the chief engineer and wounded eight others, two of whom, J. W. Rumpf and H. L. Wilder, both machinist mates of the first class, died tonight on the hospital ship Solace.

E. R. Crawford, gunners mate of the destroyer Patterson, one of the umpires named to watch the speed tests of the Walke and John Delaney, a first class fireman of the Walke, were said to be in a critical condition tonight. Others injured are: Lieutenant Robert L. Montgomery of the destroyer Fanning and umpire of the speed tests.

G. Kelly, chief machinists mate. W. E. Kraus, oiler. P. W. Conway, oiler.

The explosion came just as the Walke started on a full speed contest in company with other destroyers of the third group.

Men True to Discipline.

On this vessel discipline of the crew is said to have been perfect and their conduct in leaping down into the steam filled engine room to carry out their injured comrades brought the highest praise from their superiors. Lieutenant Charles R. Trane, the commanding officer, on the bridge at the time, handled the situation in a way to gain personal commendation from Rear Admiral Hugo Osterhaus, commander of the Atlantic fleet, who boarded the destroyer later.

The Walke came into harbor under her own steam and will go to New York navy yards for repairs. It is expected she will be able to take part in the great naval review in New York this month.

The Walke was driving ahead through the heavy seas with the full power of her engines when Lieutenant Morrison heard a muffled roar and felt the destroyer quiver. Her speed was slackened and she began to roll heavily while steam poured up the hatchways. Everybody on board knew what had happened. Somebody, without awaiting orders, turned off the steam in both engine rooms, while rescuers with blankets soaked with oil went down into the scalding, suffocating atmosphere. They found the explosion victims rolled them in the blankets and staggered back to the deck before the room had been cleared of steam.

After a boat from the Perkins had put Hospital Steward Charles Mc-

Clintson and four men with a supply of bandages aboard, Lieutenant Train, finding his starboard engine working all right, signalled the other ships that assistance was not needed and under half power put back up Narragansett Bay to the hospital ship Solace, where the wounded were transferred. The remainder of the Atlantic fleet here, with the exception of the Perkins, which acted as convoy, went about the day's drill as if nothing had happened.

Rear Admiral Osterhaus and Captain Eberle, were the only ones allowed on the Walke this afternoon. The cause of the explosion will not be known until after the report of the board of inquiry which has been ordered. Whether Lieutenant Morrison was killed by the blow on the head when the casing of the turbine split could not be learned.

His body was found near the bulkhead pump and it is believed he died instantly.

SPEED OF 90 MILES

Continued from Page 1.

was greatly interested in preparing for Saturday's grand prix race, the only event in which he was entered. He had won the American grand prix twice at Savannah and he had hoped to win again this year, which would have made him permanent holder of the American grand prix cup.

Although only 25 years old Bruce Brown was one of the best known automobile race drivers in the country. He began racing in 1907, winning his novice race at the Empire City track. In 1908 he ran away from school and acted as mechanic for the late Emanuel Cedeno at Ormond Beach, Florida. Here Bruce-Brown broke the one mile amateur straightaway record held by William K. Vanderbilt, Jr. Bruce-Brown's time being 33 1-3 seconds.

The same year he won the Shingle Hill climb at New Haven, Conn., and in 1909 lowered the amateur mark to 23 flat at Ormond Beach, Florida, while he also won the Sir Thomas Dewar cup and broke the world's ten-mile straightaway record. He won the Giant's Despair Hill climb the same season. In 1911 he was third in the 500-mile race at Indianapolis. His two most brilliant victories were the grand prix race at Savannah in 1910 and 1911.

MOTHER STARTS TO HER SON.

Did Not Learn of His Death Before Leaving Home.

New York, Oct. 1.—Mrs. R. A. Bruce-Brown, mother of the dead automobile driver, left for Milwaukee at 4 o'clock this afternoon, before receiving news of her son's death. She is a wealthy widow.

E. R. Hollender, president of the Flat Motor Sales company said tonight he had received a telephone message from Caleb Bragg, one of Bruce Brown's fellow drivers, de-

claring that the accident was due to a imperfect track.

Mr. Bragg telephoned me that Bruce-Brown's machine had struck a soft spot while driving at 80 miles an hour which caused the tire to rip off and the machine to overturn," said Mr. Hollender.

He added that according to reports the track was dangerous and that the races had been postponed ten days from the original date on the refusal of many drivers to race until it was put in better condition; he had urged the ill-fated driver to not enter.

ROUMANIA IS TO START WAR

Continued from Page 1.

are placing their armies on a war footing, but no step has yet been taken indicating an outbreak of hostilities.

A dispatch filed at Constantinople at 11 o'clock tonight announced that the foreign minister was without any communication from Bulgaria or Serbia, and no definite move in the way of combined action on the part of the six powers has been made.

Short of actual hostilities, however, the situation could hardly be worse. The report that Turkey has decided to seize all Greek vessels in Turkish waters has an especially warlike appearance, while it is further reported that Greece is about to proclaim the annexation of Crete, an act which Turkey repeatedly has declared would be considered as a casus.

Will Go to Join War.

Texarkana, Ark., Oct. 1.—Thirty Greek business men of this city signed an agreement to hurry to Greece at the first call to arms.

DRIVES CAR INTO POST.

F. O. Arnold Risks Machine To Avoid Collision.

To avoid a collision with a motorcyclist, F. O. Arnold, driving a big Carter car deliberately turned his machine into a telegraph post at the corner of Ninth and Columbus streets yesterday afternoon, damaging the machine to the extent of several hundred dollars, but escaping himself without a scratch. The man on the motorcycle, whose name has not been secured, probably owes his life to Mr. Arnold's presence of mind, according to spectators.

The Carter car at the time, was being driven at a lively clip up the Ninth street hill while the motorcyclist was coming down Columbus street at a speed variously estimated to be between 20 and 25 miles an hour. The latter at the time had his attention distracted and did not see the automobile until it was too late for him to avoid it. The big machine was even then being driven into the curb.

The front axle and frame of the Carter car were badly damaged. Arnold had a passenger at the time.

DIES FROM SERIOUS BURNS

R. D. Nowlin Catches Fire Trying to Handle Exploding Lamp—Was Well-Known Citizen.

Athens, Tex., Oct. 1.—Last night at 10 o'clock R. D. Nowlin received burns caused by the explosion of a burning kerosene lamp which caused his death.

He was ready to retire and attempted to extinguish the lamp. It exploded and threw burning oil all over him. He ran to the door and threw the lamp out, but could not extinguish his clothes until he had been horribly burned all over the body. Medical attention was summoned, but little relief could be given him, and after suffering for over 12 hours expired this morning about 11:30.

He had lived in Athens about 19 years and was associated with his brother, W. W. Day, in the market and cold storage business. He was considered one of the best young business men and was besides a man of exemplary character, and his friends include the entire citizenship of this city. Shortly after moving to Athens he was married to Miss Kate Gauntt, daughter of W. M. Gauntt, who with two small children survive him. His mother, Mrs. Mary Nowlin, brother, Chester, and sisters, Mrs. South of Rice and Mrs. Hammonds of Alma, were notified and arrived on the morning train, reaching here just before he expired.

Governor Blease Nominates.

Columbia, S. C., Oct. 1.—Gov. Cole L. Blease today was declared the democratic nominee for governor at the coming state election by the state executive committee. This action was taken after a subcommittee had reported that its investigation of the recent primary had disclosed irregularities in voting but not sufficient to alter the results.

WILLIAM R. NORIS DEAD.

Is Taken Seriously Sick and Expires at Once.

Death coming so suddenly that a physician was unable to reach him before the end came to William R. Norris, a painter, of No. 1317 Mary street, at 10:10 o'clock last night. He leaves a wife and eight children.

The funeral will take place from the residence at 3 o'clock this afternoon, and the interment will be in Oakwood cemetery.

No Connection With Standard.

Chicago, Oct. 1.—C. W. Cowan, president of the Standard Oil company of Indiana testifying in the fight of H.

Clay Pierce against certain stockholders of the Standard Oil company over control of the Waters-Pierce Oil company declared that his company, since the dissolution of the Standard, had had none but ordinary merchandising transactions with its subsidiaries. He declared that Messrs. Archbold, Pratt, Folger, Moffett, Bedford and Teagle have had no connection with the management of the company since their resignation as directors on December 6, 1911.

Hotel Man Protested.

Douglas, Ark., Oct. 1.—Manuel Cueta, Mexican consul at Douglas, Powell Roberts, chief of the Mexican secret service here, and four officers of the Ninth cavalry were arrested today on complaint of D. J. Genardini, proprietor of the Hotel Mexico.

The arrests came as a result of searching the Hotel Mexico in Douglas Sunday by American and Mexican secret service men, assisted by a squad of negro troopers of the Ninth cavalry, who were seeking Joaquin Esquer, a supposed rebel. Esquer was not found. Genardini charges that his hotel was entered over his protest.

A feud between military and civil authorities has been on since the request for the arrests made some days ago of Esquer, which was refused by the county officials.

PICKING NEW YORK WINNER.

Several Are Proposed for Democratic Candidate.

Syracuse, N. Y., Oct. 1.—This was elimination day for many aspirants for the gubernatorial nomination when the Democratic state convention assembled here.

Tonight Charles F. Murphy, leader of Tammany Hall, and those associated with him in control of the party organization, were weighing and analyzing the qualifications of three men as party standard-bearers—Justice Victor J. Dowling of New York, Martin G. Lynn of Albany, the convention's temporary chairman, and Congressman William Sulzer of New York. Late tonight a boom was started for former National Chairman E. Black as a compromise candidate.

Trainmen on Strike.

Augusta, Ga., Oct. 1.—In response to a general strike order issued today, the conductors and trainmen of the Georgia railroad went on a strike at 2:10 eastern time tonight. Three hundred men are affected.

The strike order was issued by Vice President T. A. Gregg of the Order of Railway Conductors, and Vice President James Murdoch of the Brotherhood of Railway Trainmen, in charge of the local situation, for their respective organizations.

COTTON IS UNCERTAIN "WAR" RAISES WHEAT

MARKET SHOWS DECLINE AT OPENING, DUE TO LIQUIDATION.

Prices Rally Dozen Points Later. Cables Are Favorable—Offerings Are Well Absorbed.

New York, Oct. 1.—Renewed liquidation of the ginner's report caused a decline in the cotton market early today, but prices later rallied on covering and the close was steady, net unchanged to 5 points lower.

The market opened barely steady at an advance of 1 point on October, but generally 1 to 4 points lower, and during the first few minutes October sold off to a net loss of 2 points, while later deliveries sold about 5 to 8 points under the closing figures of yesterday.

Cables were favorable, but there was a renewal of heavy liquidation of long accounts owing to the favorable weather and further indications that the government's condition report tomorrow would not show more than the average September deterioration.

Offerings were well absorbed on the decline and the market turned steadier on covering of shorts. Reports of a low barometer in the gulf states probably increased the disposition of scattered shorts to buy back their contracts, while rather a bullish interpretation was placed on the weekly report.

At any rate prices rallied a dozen points or more from the early level and at one time during the afternoon were from 6 to 9 points net higher.

Range of Futures.

	Open.	High.	Low.	Close.
January	11.10	11.17	11.03	11.13
February	11.16	11.23	11.09	11.19
March	11.20	11.30	11.17	11.25
May	11.30	11.40	11.27	11.35
July	11.35	11.38	11.35	11.29
August	11.30	11.35	11.30	11.25
October	10.89	10.98	10.85	10.92
November	10.97	10.95	10.93	10.93
December	11.20	11.25	11.13	11.19

New Orleans, Oct. 1.—Cotton futures opened steady at a decline of 3 to 4 points. Cables were not quite up to expectations, and the weather map was called very favorable, as it indicated dry weather over the entire belt while temperatures were seasonable.

The market was nervous in the early trading. Soon after the call prices were 3 to 8 under yesterday's close, but shorts commenced to cover and their buying was met by slim offerings. At the end of the first half hour of business prices were unchanged to 2 points down compared with yesterday's final figures.

The market was very steady around the middle of the morning, although no great amount of trading was done. The storm warning, caused by the disturbance in the west gulf made shorts nervous and increased their disposition to buy. At the highest the trading months were put 2 to 4 points over yesterday's last quotations.

Bearish private reports on condition showing only a moderate decline for the last month checked the tendency to advance, and at noon the trading months were 1 to 3 points under yesterday's closing.

In the afternoon the market was quiet and featureless. At 2 o'clock prices were one up to one down compared with yesterday's closing level.

MARKET CLOSING STEADY—LIVERPOOL STRENGTH FURNISHES BULLS.

Export Demand Shows Decrease. Favorable Weather Conditions Weakens Corn—Big Iowa Crop.

Chicago, Oct. 1.—Nervousness about the war scare in the Balkans gave wheat prices an upward slant. The market closed steady ½¢ to ¾¢ higher than 24 hours before. Corn showed a net decline of ¼¢ to ½¢ and provisions ranging from the same as last night to 2¢ above.

Strength at Liverpool furnished the cue to wheat bulls. Shorts were forced to cover freely. Advance of export demand checked the advance in wheat. According to gossip here, the reason was tightness of money across the Atlantic.

More favorable weather conditions weakened corn prices after the effect of the wheat bulge wore off. It was reported Iowa would have the largest crop ever raised there. Cash grades were slow. In oats the bears seemed timid on account of wheat strength. Commission houses were fair buyers. Higher prices for hogs made provisions firm. January pork scored the chief gain, 20 cents.

Lard (in tierces)—\$11.17½.

Short ribs (loose)—\$10.12½@10.62½.

Grain Statistics.

Total clearances of wheat and flour were equal to 646,000 bushels.

Primary receipts were 1,718,000 bushels, compared with 1,394,000 bushels the corresponding day a year ago.

The storm warning, caused by the disturbance in the west gulf made shorts nervous and increased their disposition to buy.

At the highest the trading months were put 2 to 4 points over yesterday's last quotations.

Bearish private reports on condition showing only a moderate decline for the last month checked the tendency to advance, and at noon the trading months were 1 to 3 points under yesterday's closing.

In the afternoon the market was quiet and featureless. At 2 o'clock prices were one up to one down compared with yesterday's closing level.

IN LOCAL WHOLESALE TRADE

List of Merchants Visiting in the Waco Jobbing Markets Yesterday.

The expected advance on iron and iron wares, predicted by local wholesale dealers, was announced yesterday. The greatest advance of any one single item was on hoops and bands, which advanced ½¢ per ton. Picks and mattocks, showed a strong market, with an expected advance.

Bolts, all kinds advanced about 10 per cent. Sheet zinc advanced ten cents per hundred pounds, making an advance of 1 and 12 cents per pound on this article since July 1, with further advance predicted. Corresponding advances were announced on all heavy hardware, or predicted for the next two months. Local wholesalers are of the opinion that the manufacturers have gotten together, and fear that a further increase in all heavy hardware will be put into effect before the first of the year.

"As an evidence that the manufacturers are getting together," said a wholesaler yesterday, "there are practically only two large axe manufacturers in the country. I have it from authoritative sources that one of these companies had prepared a decrease of \$1 per dozen in the price of axes, but was dissuaded by their stockholders, who recommended that the two companies get together. This I understand was affected, with the result that the price was increased \$1 per dozen instead of being reduced that amount. As a result we paid 350 more for 950 dozen axes, which we bought this year, than we paid for the same number last year."

A slight advance in sad irons is also quoted, the advance being around 3 to 6 cents.

Produce prices remained firm. Demand for country produce, especially fresh eggs and butter continues to surpass supply.

Visiting Merchants Here.

Among the out of town merchants doing business in Waco yesterday were:

At Herrick Hardware Co.—H. C. Laxson of Parnell and J. E. Clench of Hubbard City.

LIVESTOCK.

Fort Worth.

Fort Worth, Oct. 1.—Tuesday's market in the cattle yards was more active than on Monday, but as far as actual prices were concerned, beef steers were not much different. Beef steers were steady at a range of 4.70 to 5.90, cows and heifers steady at 3.25 to 4.25; calves unchanged at 3.25 to 3.85; calves steady at 4.50 to 7.00, and stockers active at 4.70 to 5.70.

Hogs sold on a slow and 10 cent lower market at a spread of 8 to 9.90. The sheep market was steady.

Cornishments of beef steers sold on a steady and moderately active market, the supply being limited to about a dozen cars. One car at 5.90 was the best available. Other deals were around 4.70 to 5.25.

Cattle receipts, 3800; beef steers, steady, 4.15 to 5.90; stocker steers active, 4.70 to 5.70; cows steady, 3.25 to 4.25; calves receipts 1500; steady, 4.00 to 7.00. Hog receipts 1050; 10 cents lower; top 8.90; bulk 8.00 to 8.50. Sheep receipts 300; steady.

Chicago, Oct. 1.—Cattle receipts 1-800; market steady; heaves 11¢@11.00.

Texas steers 34.00@36.00, eastern steers 35.00@39.10, stockers 34.25@37.70, cows and heifers 22.90@27.90, calves 4¢@11.50. Hog receipts 1200; market strong, 5¢ above last night; lights 38.30@39.00, mixed 35

REBELS TORTURE THEIR CAPTIVES

STORIES OF ATROCITIES IN MEXICO FROM LIPS OF AN AMERICAN.

IS JUST BACK FROM THERE

Tells of Cruelty Practiced, By the Men Who Carry on the Guerrilla Warfare.

An American citizen, a Texan, who has just returned from the state of Zacatecas, Mexico, brings a report of actual happenings which include pillage, torture, executions and brutality, the like of which is hardly to be believed by civilized people.

The young man who relates the incidents will not allow his name to be used. He has relatives in Mexico, and if this story happened to filter back through various channels, and fall into the hands of those who are engaged in the guerrilla warfare of that country, he believes it would mean the death of those who are of his family. That his story can be accepted, anonymous though it is, the Morning News will vouch for, as the editor of the Morning News has been closely associated with the bearer of the tidings from Mexico for several years, and knows him to be reliable.

He says that September 16 there were ten federal soldiers in charge of the town of Saenz Alto, in the state of Zacatecas. These soldiers were under command of Captain Sandoval. They were attacked by 200 rebels under the leadership of Luis Carvo. The rebels stood off the soldiers from 5 a. m. until 1 p. m., when the rebels finally took possession of the town. They shot down all the soldiers, and tying a rope around the leg of the captain, they dragged him about the streets until his brains were knocked out on the stones. They then burned the telegraph office, the postoffice and public buildings, robbed the stores of the small town and left the people being without stores upon which to subsist. The American who brings this information was within twenty miles of the place when it occurred.

After this pillage and murder at Saenz Alto, the rebel band divided and thirty of them went to Hacienda San Rafael and demanded food. The man there had his wife and daughters cook food and serve it to them, and he turned over to them all he had to eat. When they took the head man of the place and other men there, imprisoned them in a house, and before their eyes they took the women of the place and abused them. This was September 17th.

An instance of torture which is reported by the American is of a lad 12-years of age, who fell into the hands of the rebels. They took knives and peeled the skin from the palms of his hand to the bone, forced him to walk barefooted over thorns on a mountain and finally hung him by his feet until he died in his agony. The men who did this were executed the next day by federal soldiers who caught them.

He says that the method of warfare of the rebels is to hide in the mountains and when they feel that federal soldiers are near, they come out of their hiding, pillage a town, murder the citizens and then with their loot of valuables and provisions go back into the mountains to hide until the next opportunity.

The rebels hang all federal soldiers whom they find. The federal soldiers are all who are proved to be rebels who are captured.

BUSH IS HEAD OF THE PHIL

Is Elected President of the Oldest Social Organization Here.

Election of officers of the Phil Literary club for the ensuing term of one year was the principal business transacted at the meeting of the organization held in the rooms of the club last evening. The meeting was attended by about 60 members. The new officers of the club are:

President, Tom F. Bush.
First vice president, S. M. McAshan.
Second vice president, A. H. O. Ramsey.

Secretary, C. J. Cartwright.
Treasurer, L. E. Luedde.

The reports of several of the standing committees of the club were read and the reports of the old officers read and filed. The club was shown to be in excellent financial condition. A number of short speeches were made by the members.

The Phil Literary club was organized on February 14, 1884, and is one of the oldest social organizations of the city.

Delegates to Houston.

The following business men were appointed delegates to the commercial secretaries' and business men's association of Texas to be held at Houston October 4 and 5, by the Waco Business Men's club: H. H. Shear, W. W. Seely, J. R. Milam, C. L. Sanger, W. W. Cameron, E. Rotan, G. H. Luedde.

Col. E. J. Gurley Is Better.

Col. E. J. Gurley, one of the most prominent Confederate veterans of Waco, who has been seriously ill at the home of D. R. Gurley, on the corner of Third and Gurley streets, was said last night to be apparently considerably improved, having spent a comfortable day.

THE FOOL ARITHMETIC

HAS NO DEFENDER IN J. C. LATTIMORE OF THE WACO PUBLIC SCHOOLS.

Statistics Show the Waco Schools Make Few Changes in Books When Let Alone.

Following the charge made by the Rev. Hubert D. Knickerbocker from the pulpit of the Austin Avenue Methodist church Sunday night that he believed there was graft behind the present change of text books in the public schools of the state, Superintendent J. C. Lattimore of the Waco School system, when seen yesterday stated that he is opposed to frequent changes of the books in the local schools. Mr. Lattimore further admitted that he is not a defender of "that fool arithmetic" referred to by the Methodist minister.

With reference to the frequent changes made in the text books here, Mr. Lattimore said there was just one way to remedy the matter and that is by state legislation. Prior to the passage of the present state law, he said there had been very few changes of the books in use in the local schools. Such changes as have been made, he said, had been made under the law.

"Prior to the passage of the law, in 1908, I think it was, the schools of Waco used the same text books year after year. For instance our series of arithmetics had been in use here 24 years, our language series 15 years, geographical series 10 years, readers, one series, eight years and the other 14 years, and our spellers for 14 or 15 years.

"This shows that those in charge of the Waco schools are opposed to constant changes in the school books. Shortly after we were forced to abandon one of the old series we had in use for years, the St. Louis public schools adopted them for use and they are still in use there. If the local authorities were exempted from the operation of the state law, I think there would have been few changes here."

When asked about "that fool arithmetic" Mr. Lattimore smiled and for a time said nothing.

"To be frank with you," he finally said, "I am not a fervent defender of that book. However, it has some excellent points and I have found some grave defects in it."

WHO WILL BUY SCHOOL BOND

Money Is Needed and There Is No Market for the City Security.

Just what to do with the thousand dollar bond of the issue for the public schools, is a question that the city commission cannot quickly decide, and the matter is still in the air, being discussed almost every time the commission gets together.

This bond was one of the last issue. In the lithograph there was an error made in the reverse endorsement, and the bond company which bought the issue declined to take this one unless the city would have the error corrected. It was estimated that it would cost too much to have a single bond lithographed and the security has remained in the office of City Secretary John C. Davis. Recently Judge John C. West, chairman of the school board took the bond to a meeting of the board so it could be talked over and some arrangement made to dispose of it, as the schools need the money. In an effort to market it, an offer was made by W. D. Lacy for the cemetery association, but as it would have been a price which would have been below par, the city attorney ruled that the bond could not be sold at that price. There has been no other offer.

At the city commission yesterday morning Commissioner Littlefield suggested that as there is enough money in the sinking fund that the thousand dollars be taken from that fund, turned over to the school board and the bond retired.

Commissioner Wright—"You can't retire it and give anybody the money for it."

This opened up a question. Shall the city put the bond in the "sinking fund," give the school board the money for its present uses, and clip the coupon every time interest is due? or shall the city try to sell the bond, hoping to find a purchaser who will give par or better? or shall the bond be retired and nobody get the money?

This latter course cannot be followed, because the school board needs the money. There is no doubt that the bond will be paid, when the time comes to pay it, the error will not make a difference to the city, because the city will not repudiate the debt. Some one may suggest a way out of it, and some one may turn up who is willing to give the city par.

City Tax Collections.

Tax Collector R. L. Strubling reported the following collections for September:

Rolls prior to 1905	\$ 42.15
Rolls for 1905	4.22
Rolls for 1906	28.35
Rolls for 1907	7.80
Rolls for 1908	14.98
Rolls for 1909	4.35
Rolls for 1910	10.50
Rolls for 1911	152.75
Interest	90.68
Occupation taxes	387.50
Eleventh street paving	142.10
Total	\$889.42

Traffic Bureau Elects.

At a meeting of the directors of the freight traffic bureau held last night, C. L. Sanger was elected president, J. C. Dillard secretary and traffic manager.

Other business of minor importance was taken up and disposed of.

TOO FEW PROMOTED IN THE LOCAL COURTS

SUPT. LATTIMORE WANTS THOROUGHNESS IN THE PUBLIC SCHOOL WORK.

But the Natural Ability of Child Must Be Considered, as Well as Text Book Knowledge.

Declaring that he was disappointed in that not more pupils were promoted from the various grades last year, stating that he believed in a high degree of thoroughness on the part of the child in as far as the essentials of the principles which they study is concerned but thought it unwise to insist that the child master many of the facts and much of the data in the books of the Waco public schools made an address at the second general teachers' meeting which was aimed to direct the work of the corps throughout the year.

An address of Dr. J. R. Ferrell, school physician, dealt with the proper sanitary measures to be pursued by the teacher in the school room and showed that the backwardness of many pupils is due often to some physical defect which can be corrected rather than to lack of intellect.

Among the causes responsible for retarding many children, he mentioned defective vision, enlarged glands, such as tonsils, and he gave the teachers before him advice with reference to their instructions to the children as to the care of their eyes. He cautioned them not to allow the children to sit facing the light, and as far as possible to so arrange their work that the light will come from the rear and left. He asked further that the teachers instruct their children in the care of their eyes when they study at home, especially when under an artificial light.

He gave instructions as to the filling of the various blanks called for on the health card for each child in school.

Not Enough Promotion.

Prof. Lattimore, in beginning his remarks, referred to the fact that in a number of the rooms last year the percentage of promotions was smaller than he thought should have been the case. While sure that each teacher had been conscientious and had promoted every child she thought worthy of promotion, yet he feared that many of the teachers were inclined to require a degree of text book thoroughness that, perhaps, was more than should be expected of children in their respective grades. He said he believed in a high degree of thoroughness in so far as the essential principles of the subjects were concerned.

He further stated that he regarded the chief purposes of education as, first, the development of the child's native powers; second, the formation of habits that shall be useful in after years and, third, the installing of such ideas and ideals as shall furnish him with the highest motives and inspire him to the greatest degree of effort toward the accomplishment of those purposes. Hence, he said that the chief question in passing from grade to grade is not one of text book perfection in what the child had passed over, but was whether the child would receive more benefit by being allowed to go to the grade above or by going over again the work of the previous year.

Prof. Lattimore said that he recognized that the determination of this question was often a matter and he urged on each teacher and principal to weigh carefully all the circumstances before deciding this question in the case of doubtful pupils, for an unwise settlement, he said, might prove exceedingly unfortunate for the child.

All of the teachers of the schools were in attendance at the meeting and the interest evidenced by them proved a source of satisfaction to Mr. Lattimore.

WOMEN SECURE OVER \$200

Moving Picture Benefit Nets Large Sum for Democratic Campaign.

More than \$200 was raised by the women of Waco through securing a small percentage of the earnings of the local moving picture shows yesterday, and, under the direction of Mrs. W. E. Spell, which will go to the Wilson-Marshall campaign fund as part of the contribution from this city. That this, the first effort of the local women to secure funds, is an evidence of their enterprise and a sure indication that funds will be forthcoming in a respectable quantity from Waco before the close of the campaign, was the consensus of local opinion here last night.

Mrs. Spell, who had charge of the work here, assisted by a large committee, saw to it that all of the moving picture houses were appropriately decorated for the occasion and that the fact that part of the funds would go to the campaign fund was given much publicity through the newspapers. She is chairman of the women's auxiliary Wilson-Marshall organization of this congressional district. The men of the city expect to supplement this sum by substantial contributions within a short time.

Building Permit.
The following building permit was issued from the office of the city secretary yesterday:
C. D. Turner, 119 Bridge street, permission to erect a stucco shed, cost \$25.

JOHNSON CASE IS TO BE CALLED BEFORE JUDGE RICHARD I. MUNROE.

Much Interest in the Trial—Both Sides Will Be Ready, as Well as Information.

When the Fifty-fourth district court is convened this morning by Judge Richard I. Munroe, the first case to be called will be that of the state of Texas against Alec Johnson, indicted for the murder of J. Bruce Duncan of the Waco Machinery company, in the office of the latter last spring.

Due to the prominence of the principals to the killing, interest through this section of Texas has been great, and it is believed that the court room will be crowded with visitors throughout the trial. So far as could be learned last evening, there will be no hitch in starting the case today. It is understood that both state and defense will announce "ready for trial" when the case is called.

At the time of his death, J. Bruce Duncan, who was a man of considerable property, was secretary and treasurer of the Waco Machinery and Supply company, with offices at 611 Franklin street, while Alec Johnson was a traveling man in the employ of the firm.

It was stated at the time of the killing that the two men had trouble over a contract of employment under which Johnson worked for the firm. In the office on the date of the killing they had an altercation, it is said, which resulted in the shooting, the arrest of Johnson and his subsequent release under bond.

County Attorney Pat Neff will be assigned in the prosecution of the case by Judge Sam R. Scott, while Williams and Williams and Judge J. N. Gallagher will represent the defense.

James A. Baker, Botts, Parker & Garwood, and president of the board of trustees of the William M. Rice Institute for the Advancement of Literature, Science and Art, who is a brother of Mrs. Duncan, widow of the dead man, is in the city and will be in attendance on the trial as a spectator. It is understood that he will not assist the prosecution.

NINETEENTH DISTRICT COURT.

Hon. Marshall Burnett, Judge.
R. V. McClain, Clerk.

Case of J. A. Lempe against the City of Waco; further argument set for Monday.

Jeffery Realty company against the estate of Joseph Solomon; for settlement of certain judgments; plea of statute of limitations, entered by defendant, upheld by court. Suit dismissed.

FIFTY FOURTH DISTRICT COURT.

Hon. Richard I. Munroe, Judge.
R. V. McClain, Clerk.

Harry Shaw, charged with attempt to commit burglary, sentenced to two years in the penitentiary.

Ed Brady, a negro, pleaded guilty in five cases of burglary, and was sentenced in each case to serve five years in the penitentiary, getting an aggregate term of 25 years.

Frank Madison, pleaded guilty to a charge of robbery, sentenced to serve five years in the penitentiary.

Robert Conaway pleaded guilty to the passing of forged instruments and was sentenced to three years in the penitentiary.

COUNTY COURT.

Hon. Tom L. McCullough, Judge.
C. T. Wallace, Clerk.

Case of R. E. Word against R. H. Owens; suit for \$25 attorney's fee. Testimony and argument concluded and case will be given the jury at the opening of court this morning.

W. T. Chiles against St. Louis Southwestern railroad company for \$195 damages result of loss of one horse and injury to another while in transit. Full amount of damages awarded to the plaintiff.

SUITS FILED YESTERDAY.

In Nineteenth District Court.

Not suits filed.

FIFTY-FOURTH DISTRICT COURT

No suits filed.

IN FEDERAL COURT.

M. C. H. Park, trustee of Slayden-Kirksey Woolen Mills, against the Farmers and Merchants bank; suit on alleged preference in bankruptcy for \$10,000.

COUNTY COURT.

No suits filed.

Marriage Licenses.

A. F. Koehn and Mrs. M. E. Ford, Jesse Barnes and Rovella Long.

Automobile Licenses.

1308—J. M. Penland, Waco, four cylinder, 30-horse power Chalmers-Detroit.

1309—L. Rothschild, Waco, four cylinder, 30 horse power Chalmers.

1310—Joe Oswald, Waco, one cylinder, four horse power Flanders 4.

At the Temple Tonight.

Tonight at 8 o'clock and on Thursday morning at 10:30 will mark the conclusion of the festival services.

At the evening services Rabbi Warsaw will deal with a theme near to the hearts of you all. Do not miss it. The subject of the sermon on Friday night at 8 o'clock will appeal to all those who can "think, feel and smile."

The sermons and lectures at the Temple are intended for all, regardless of creed or membership.

ROTAN AND BUCHANAN ARE NAMED FOR SERGEANTS OF THE POLICE FORCE OF THIS CITY.

City Chemist to Press the Davis Ordinance—Sparks Family Asks for Clear Title.

At the meeting of the city commission yesterday morning an ordinance was passed under the suspension of the rules providing for the appointment of two police sergeants and as soon as it was passed Mayor Mackey nominated Officers Robert Buchanan and George W. Rotan for the positions, and they were confirmed by the commission.

Commissioner Gorman—I think you have selected two good men.

Commissioner Caulfield—If they don't do the work, no men will.

Commissioner Wright—I approve the choice. I thank you for George Rotan. I have watched him closely, and he is a good officer.

There was little discussion on the subject. All the commissioners were heartily in favor of the new positions except Mr. Littlefield, and while he had accumulated some data on the subject to use in an argument against it, after he heard the argument in favor of it he did not vote yes nor nay, saying that he was not so sure he opposed it as strongly as he thought he did. Their salary will be \$85 per month, an increase of \$10 per month. They will be next in authority to the chief of police and his assistant and will have the right to pass on bonds for prisoners. They will also be compelled to see that the patrolmen are giving attention to their respective beats.

The Delinquent Dairymen.
City Chemist Hoke came before the commission and reported that several of the dairymen are yet delinquent in the matter of taking out a license, and the commission instructed Dr. Hoke and the city attorney to press the enforcement of the ordinance.

Sparks Family Want Six Feet.
P. S. Sparks, representing the Sparks estate came before the commission and stated that in selling the Sparks home a few days ago, it was found that at Fifteenth and Washington street it developed that six feet along the side had been dedicated to the city as a street, and that the same strip of six feet had been sold to Judge Prendergast when he first bought the property. There is a house on the six feet strip that was built twenty-eight years ago and there has been a fence there thirty years or more. Fifteenth street, never having been opened. The matter was referred to the city attorney for an opinion what the city can do.

Far Plain Clothes Men.

A petition for two plain clothes men to be appointed to the police force was presented and was filed for future reference.

TO CLOSE OUT MEN'S GOODS

Mistrot-Calahan Will Need More Space for the Women's Wear.

Announcement was made in Sunday's Morning News by Mistrot-Calahan Co., of an important change to be made in the departments of their big store. They are to discontinue handling men's and young men's clothing and accessories and have put on a big sale to clear out that side of their house. Their object is to concentrate on the dry goods, women's misses' and children's departments, and greatly increase their stocks of ready-to-wear, millinery and dry goods. Additional space is needed and as there is much in accomplishment to the concentration one gives an object or purpose, Mistrot-Calahan Co. decided to make this change to concentrate their efforts, attention and study on dry goods and women's apparel.

Hence, their sale of men's goods. And too the fact that their sale comes at this particular season and at this time of season, adds more interest to it to the menfolk, for everything in that side of the house goes—suits, overcoats, shoes, hats, shirts, underwear, tie, collars, socks, etc., including the very latest purchases this house made for the current fall season. But they had already bought this season's lines before they decided on this change of stock.

The sale began Tuesday and proved itself a winner. Great numbers of men and young men took advantage of the big reductions made and close out the men's wear and buying was brisk all day yesterday. Following the announcement of Mistrot-Calahan of this sale the weather gods turned a trick in their favor and cool weather was a pertinent reminder to the menfolk of the opportunity offered them at this popular store. The sale will continue until the men's stock is closed out.

Will Sell Small Farms.

The tract of 1539 acres of land near China Springs which was bought a few days ago by Sam Stratton will probably be cut up into small tracts of 50 or 100 acres and sold to stock farmers and actual home owners.

The deal for this sale was handled through the Jenkins Realty company and that company is now planning the division of a part of the tract. Mr. Stratton expects to keep some of it himself, as he bought it to own farming land, but there will be some put on the market.

Fifteen minutes after they had secured a marriage license from Clerk Wallace on the floor above, A. F. Koehn and Mrs. M. E. Ford were married in the office of Justice Dan Ford on the first floor of the courthouse yesterday. Only a few persons were in attendance.

Women's Distinctive Footwear in Pronounced Fall and Winter Styles

We have pleasure in announcing several new models just added to our large stock of stylish and distinctive footwear. The present displays are adequate to all demands, but daily arrivals are constantly being recorded, showing how broadly we provide and aid those always anxious for the last word in footwear.

Every new style expression is clearly defined in these assortments, some of them, in fact a large majority of them, being exclusive; all of a refinement that refutes any argument as to their correctness. The staple models are also in evidence, and are unsurpassed in quality, workmanship and excellence.

All Leathers, All Wanted Fabrics: Shoes of Style, Quality and Durability. Prices Decidedly Reasonable.

For the Dressing Table, High Class Toilet Accessories

Our Toilet Goods Department presents a stock that is not surpassed in completeness. Particularly worthy of mention are the following high quality lines:

Rigaud's "Mary Garden" Extract.	Coty's "La Rose Jacqueminot" Sachet.

DON'T WANT PAUPERS

CITY OF HOUSTON TAKES ACTION AGAINST CERTAIN CLASS OF UNDESIRABLES.

Waco City Commission Is Now Face to Face With Question of Mendicants.

Just what to do with the many mendicants who are busy on the well traveled streets of the city is a question which is of much interest to the city authorities at this time, and it has been referred to the city attorney to bring in an opinion on the subject.

Mayor Mackey brought the matter up at the meeting of the commission yesterday morning. He said the town is rapidly filling with beggars, many of whom are the advance guard of the crowd which is to make Waco a rallying point during the Cotton Palace.

Commissioner Wright—Look at the bunch lined up along Austin avenue already.

What to do with them is a question. Some are cripples, some blind. It is the opinion of some of the authorities that a number of these people are of the professional class who have refused assistance in the communities in which they originally belong and are traveling from place to place, covering a regular circuit. The city attorney has been asked for an opinion on the subject.

It is against the policy of the city of Waco to "send them on," that is buy a ticket and forward them to the next town as is often the case.

Attention has been called to the fact that Houston has passed and is seeking to enforce an ordinance prohibiting the entry into Houston of any poor person unless he or she has employment immediately in view or unless friends stand ready to care for the income.

The mayor of Houston has placed in effect an ordinance prohibiting objects of charity and paupers of other localities from being shipped to Houston unless they have come assurance that employment will be given them, or that relatives will support them, the transportation lines bringing such persons into Houston without means of support will be compelled to return them to starting point.

You will in future be very careful in the issuance of orders covering reduced rates account of charity, and in every case have a letter setting forth what provision has been made for the person in Houston.

Williams Resigns Clerkship.

E. F. Williams, for eight years connected with the Missouri, Kansas & Texas railroad, announced yesterday that he had resigned his position as chief clerk to Superintendent F. R. James of the Dallas and Fort Worth divisions of the road. He will be succeeded by J. M. Sullivan of Port Dodge, Iowa, who has reached Waco and assumed his duties. The latter was formerly with the Illinois Central.

While nothing official as to the movements of Mr. Williams can be secured, it is understood that he is slated for advancement by General Manager Webb. Mr. Williams came to this city from Greenville in June, and since his arrival has made a host of friends.
